## CARMONA CELEBRATES FINAL FOUNDING ANNIVERSARY AS 'TOWN' IN CAVITE

**CARMONA, Cavite** – Residents here celebrated the town's 166th founding anniversary for the last time on Sunday with various activities.

By next year, Carmona will be officially categorized as a "city" after having completed the requirements for cityhood.

Sunday's celebration carried the theme, "Direct Access to Healthy Lifestyle Intervention and Advocacy" (DAHLIA) 2023," with activities organized by the municipal information, tourism, health and cultural offices.

A Zumba dance session was held at the CarSiGMA (Carmona-Silang-General Mariano Alvarez) Gymnasium in Barangay Lantic, joined by residents clad in various costumes.

Participants came dressed as superheroes including the Filipino heroine Darna and villains Valentina and Zuma, a '70s rockstar, Barbie doll, Power Puff Girls, Snow White, Little Red Riding Hood and even the Netflix series Squid Game characters.

Other activities included a drum and lyre competition and street dancing. The festivities were participated in by around 3,000 residents.

In an interview, Dr. Homer Aguinaldo, Carmona's Municipal Health Officer, said the theme was "conceptualized by the Department of Health, adopted by Carmona LGU."

He said the program was named after Mayor Dahlia Loyola.

Aguinaldo commended the participants from the school, community, private and public sectors, particularly the municipal employees who worked hard to ensure the success of the events.

He said they are happy to be able to again celebrate the occasion face to face after two years of the Covid-19 pandemic, but they are looking forward to a bigger celebration next year, considering that

Carmona would be a city by then.

Among the cityhood requirements that have been met by this town are having a population of more than 300,000 and an annual income of PHP50 million. (PNA)

## 4th Philippine Environment Summit opens multi-sectoral discussions for climate action

**TAGAYTAY CITY (PIA)** — Around 1,000 multi-stakeholders gathered in Tagaytay City on Tuesday as the Department of Environment and Natural Resources (DENR) Region 4-A and Green Convergence formally opened the 4th Philippine Environment Summit. With the theme "Caring for Earth: Scaling Up Solutions to the Climate Emergency," the summit

aims to celebrate the Philippine environmental movement and serves as a call for each Filipino to take personal responsibility for the country's response to the climate emergency.

Promoting the target of Climate Neutrality by 2050 and laying out recommendations on food safety and having a sustainable economy are among the agenda of the environmental summit. In a video message, Vice President Sara Z. Duterte lauded the DENR and Green Convergence, along with a coalition of environmental networks and organizations for their support of the government's whole-of-nation approach to reduce climate change vulnerability.

Duterte then urged different sectors in the country to become voices of change in the country to mitigate the risks brought about by the rising sea levels, changes in air temperature, and frequency of climate disasters. "By showcasing projects and programs that directly or indirectly address climate change, we provide resources and tools for others to find inspiration and encourage every sector of society to make climate action a priority," the Vice President said.

DENR 4-A Regional Executive Director Nilo Tamoria underscored the importance of spearheading the summit to strengthen the collaboration and involvement of different sectors in addressing the climate emergency. Tamoria then highlighted the accomplishments of DENR 4-A in preserving nature and wildlife throughout the region by actively monitoring protected lands and implementing environmental laws and

well promoting sustainable regional tourism, cultural heritage and environmental awareness and protection within the boundaries of the Southern Tagalog Region — considered as the cradle of Philippine Independence. He said the next KLABARZON Townhall Meeting will be held in Laguna, and will be attended by the Department of Trade and Industry (DTI) to discuss fair pricing of commodities and other market strategies. (PNA)

regulations. The regional executive director appealed for everyone's participation in environmental causes to ensure that the government's efforts won't go to waste. "While the department moves to sustain, develop, and improve programs for the environment, we also rely on the continued support and commitment of our stakeholders. I know that some of our participants today belong to the youth. After this three-day activity, I challenge you to make use of what you have learned, apply it in your daily lives, and be our environmental champions. We hope that when you go back to your own communities, you will serve as our multipliers," Tamoria added.

Systems-lens response vs climate emergency DENR Undersecretary for Field Operations - Luzon and Visayas Atty. Juan Miguel Cuna delivered the summit's keynote speech on behalf of DENR Secretary Maria Antonia Yulo-Loyzaga. Cuna said that confronting the climate emergency should be under a 'systems-lens' approach to ensure a comprehensive response to hazards being felt throughout the world.

Usec. Cuna then quoted President Ferdinand R. Marcos Jr. saying "...[T]he preservation of the environment is preservation of life," and added that the investment towards prevention and preparedness for environmental hazards must continue.

He also laid out several approaches to be implemented by the DENR during the Marcos Jr. administration such as the establishment of National Risk Registry, crafting nature-based solutions for climate action, facilitating disaster resiliency efforts for businesses, unity with the CSO community, and investment in education and capacity building for the labor force to involve them in the preservation of the environment.

The DENR also commits to involve the youth and the private sector in policy decisions in combating climate change, as the department believes that all the plans for the economy will be forgone if the environment continues to be at risk. Members of environmental groups, non-government organizations, academe, and the media then had the chance to participate in a more in-depth discussion with sessions and exhibits focusing on programs and topics about sustainable development like renewable energy, organic agriculture, safe food manufacturing, climate change adaptation, ecological solid waste management, and ecotourism among others. ## NCRPO Internal Cleansing Program

Isang klasikong halimbawa ng pagbibigay pag-asa sa mga pulis na nakatalaga sa National Capital Region Police Office (NCRPO) sa ilalim ng pamumuno ni PMGEN JONNEL C ESTOMO ay ang patuloy na pagtataguyod nito sa kapakanan ng bawat pulis sa ilalim ng kanyang liderato. Malinaw na nakikita, pinahahalagahan at nadarama ang kampanya at internal cleansing ng NCRPO para labanan ang katiwalian sa loob ng organisasyon ng PNP at alisin ang lahat ng nagkakamali na pulis at police scalawags sa hanay nito. Tinitiyak ni General Estomo na ang

bawat pulis NCRPO ay nagnanais ng pagbabago sa puso. Ayon sa datos, mula 2019-2022 ay mayroong humigit - kumulang na 72 tauhan ng NCRPO ang isinailalim sa restrictive custody habang nakabinbin ang imbestigasyon ng grave administrative o criminal charges na isinampa laban sa kanila. Subalit 47 sa mga ito ay nakabalik na sa kani-kanilang mga PNP Units sa utos ni General Estomo matapos mapatunayan na walang record ng kasong administratibo o anumang pagkakasangkot sa mga isyu ng iregularidad, anomalya o anumang kaso na isinampa laban sa kanila.

Mula sa natitirang 25 na pulis NCRPO, apat (4) dito ang natanggal sa serbisyo dahil sa grave misconduct at conduct unbecoming of a police officer, paglabag sa RA 9165, RA 10591, RA 7610, at violation of acts of lasciviousness.

Samantala, isang (1) tauhan ng PNP NCRPO ang tinanggal sa serbisyo dahil sa paglabag sa honor code, ang pulis na ito umano ay nagkamali sa paggamit ng pondo ng kanilang Class Fund at pagbabago ng ilang mga dokumento. Tatlo (3) ang na-demote dahil sa extortion / pagtanggap ng drug payroll money. Dalawa (2) ang sinuspinde ng 59 araw dahil sa grave misconduct para sa illegal discharge of firearms, maltreatment, at less grave misconduct dahil sa paglabag sa RA 11332 at disobedience.

Limang (5) tauhan ng PNP NCRPO ang sinuspinde ng 60 araw, dahil sa umano'y conduct unbecoming of a police officer for intercepted liquor and tobacco at violation of RA 3019. Tatlo (3) ang sinuspinde ng 180

araw dahil sa conduct unbecoming of a police officer for extortion at illegal discharge of firearm. Habang anim (6) na pulis NCRPO ang pinawalang-sala sa mga kasong conduct unbecoming a police officer for intercepted liquor and tobacco at robbery extortion.

Patuloy naman nakabinbin ang status ng isang PNP personnel habang sinusuri pa ang kanyang kaso na simple dishonesty.

Sa kanyang mensahe sinabi ni PMGEN Estomo, "we have stepped up our efforts to cleanse the rank of NCRPO as part of our commitment in improving the level of discipline, competence, and effectiveness of our personnel.

On his part, General Estomo had this message to everyone, "the road to internal cleansing might be long but with the assistance and support of everyone, the internal cleansing effort of the NCRPO will not be in vain."

## Wetlands sa Calabarzon, nanganganib dahil sa land conversion, ecotourism

**LUNGSOD NG CALAMBA, Laguna (PIA)** – Binibigyan diin ng

Department of Environment and Natural Resources (DENR) Calabarzon na mahalagang pangalagaan ang mga wetlands mula sa banta ng pagkasira nito, kasabay ng pagdiriwang ng World Wetlands Day.

Alinsunod sa Proclamation No. 74 ng noon ay Pangulong Joseph Estrada, nakikiisa ang buong bansa sa pagdiriwang ng World Wetlands Day tuwing ika-2 ng Pebrero kung kailan nilagdaan ang 1971 Ramsar Convention.

"Binibigyang diin ng World Wetlands Day ang pagkilala sa pagtutulungan ng kalikasan at ng tao," ani PENRO Quezon Wetlands Focal Person, Melindo Gordo.

Paliwanag ni Gordo, malaki ang gampanin ng mga polisiya ng pamahalaan upang mapangalagaan at mabigyan ang proteksyon ang mga wetlands at ang natural resources na matatagpuan dito.

Batay sa datos ng DENR Calabarzon, mayroong 22 wetlands sa mga lalawigan ng Laguna at Quezon na kasalukuyang pinangalagaan ng pamahalaan.

Subalit inasahang madaragdagan pa ito dahil mayroon pang mga bagong wetlands na nadidiskubre. Ayon kay PENRO Laguna Wetlands Focal Person, Maria Teresa Silan, malaki ang naitutulong nito sa kabuhayan, partikular na sa ikatlong distrito ng kanilang lalawigan dahil ginagawa itong ecotourism site. Malaki rin ang naitutulong nito upang maiwasan ang malalang epekto ng climate change tulad ng pagbabaha sa mababang bahagi ng probinsya, at pagregulate ng water supply sa ecosystem.

Ito rin ang isa sa mga pinagkukunan ng pagkain at kabuhayan ng mga mamamayan, at nasisilbing tirahan ng mga migratory birds.

Bilang isang industrialized na lalawigan, isa sa mga pangunahing banta sa mga wetlands sa Laguna ang land conversion.

"Ang threat dito sa Laguna ay ang conversion ng wetlands upang maging commercial at residential areas. Kaya naman, tuloy tuloy ang ginagawa naming treeplanting activity at coastal cleanup. 'Yung cleanup activities namin, tuloy tuloy pa rin para marestore 'yung lakes namin.'" ani Silan.

Bilang isa sa mga ecotourism center sa bansa, nanganganib naman ang wetlands sa lalawigan ng Quezon ang pagdating ng invasive species at ang mga gawaing panturismo na nakakasira sa kalikasan.

Sa ngayon, sinisikap ng DENR CALABARZON na lalong mapatibay ang pakikipagtulungan ng lokal na pamahalaan sa pangangalaga ng mga wetlands sa rehiyon. Batid rin ng pamahalaan na mahalagang maunawaan ng mamamayan ang kahalagahan ng wetlands kaya naman patuloy rin ang kanilang mga Information, Education, and Communication (IEC) Campaigns. Masusi rin ang pagpapatupad ng mga batas pangkalikasan at pagbabantay sa mga wetlands sa rehiyon. **(PB)**

## KaltaSSS-Collect Program, inilalapit sa mga barangay

**LUNGSOD NG CABANATUAN (PIA)** -- Nakikipagtulungan ang Social Security System o SSS Cabanatuan Branch sa mga barangay upang mailapit ang serbisyo at benepisyo sa mga mamamayan. Isa sa matagal nang programa ng ahensya ang KaltaSSS-Collect na hangad mailapit ang serbisyo at pribilehiyo ng pagiging miyembro ng SSS sa maraming sektor ng lipunan. Sinabi ni SSS Cabanatuan Branch Manager Jose Rizal Tarun na nais ng ahensya na makatulong sa mga barangay worker na nagnanais maging miyembro at mapadali sa paghuhulog ng buwanang kontribusyon. Sa pamamagitan ng programa ay hindi na kinakailangan pang personal na magtungo ng bawat kawani ng barangay sa opisina ng SSS dahil mayroon na lamang nakatalaga na magdadala ng mga buwanang hulog. Layunin ng programa na mabigyan ng social protection ang bawat empleyado ng barangay mula sa mga health worker, barangay tanod, garbage collector at marami pang iba.

Pagliliinaw ni Tarun, mahalaga na sila ay maging miyembro ng SSS upang makatanggap ng mga benepisyo sa panahon ng pangangailangan tulad kung magkasakit, manganak, magretiro at iba pa. Maliban sa KaltaSSS-Collect Program ay kasama sa pagtutulongan ng mga barangay at Cabanatuan Branch ang paglulunsad ng mga eCenter na aalalay at tutugon sa mga serbisyo na kailangan ng mga nasasakupang mamamayan partikular ang mga magpapasa ng aplikasyon sa pagkuha ng mga benepisyo sa SSS gayundin ang mga nagnanais na magsimula pa lamang maging miyembro. Pahayag ni Tarun, layunin ng SSS Cabanatuan na maisagawa ang mga programang ito sa 643 nasasakupang barangay sa Nueva Ecija. Unang ilulunsad ang programa sa barangay Entablado sa bayan ng Cabiao matapos ang

## Super Health Center groundbreaking, isinagawa sa bayan ng Malvar

## Philippine Wushu sa SEA Games may tsansa sa gintong medalya

**MALAKAS** ang paniwala ni Wushu Federation Philippines (WFP) President Freddie Jalasco na hindi mabobokya ang Philippine wushu artists sa pagsabak sa 32nd Southeast Asian Games sa Cambodia sa Mayo 6-17.

Ayon kay Jalasco, kauna-unahang Pinoy non-speaking Chinese, na kaya ng koponan na mapantayan ang dalawang gintong medalya na nakamit ng wushu artists sa SEAG sa nakalipas na taon sa Vietnam.

"Our athletes are ready and currently under intensive training with our Chinese coach. Hopefully, maging maganda ang performance natin sa Cambodia SEAG, but conservatively kaya ang 2 gold medal kaya natin yan," pahayag ni Jalasco.

Sa Vietnam edition, nanatiling maningning si Agatha Wong sa napagwagiang gintong medalya sa women's taijijian event, gayundin si Arnel Mandal sa men's sanda 56kg. Inamin ni Jalasco na walang masyadong nagging exposure ang wushu sa abroad dahil sa naaprubahang programa, ang SEA Games sa Cambodia ang unang torneo para sa Pinoy wushu artists.

"Yung Vietnam SEAG last year, after that hindi na nasundan, pero tuloy tuloy naman ang training natin kahit dito lang tao sa Pinas. Itong Cambodia SEAG ang

una nating exposure at major program," sambit ni Jalasco.

"Meron tayong players na galing sa Bicol na tisoy akala mo foreigner pero Bicolano yan, vey promising, yan ang babantayan natin," aniya.

Pursigido si Jalasco na palakasin ang wushu sa Pilipinas higit sa mga malalayong lalawigan upang mas maparami ang wushu practitioner na puwedeng pagkuhaan ng atleta para sa mga international competition.

"Medyo sa mga probinsiya hindi talaga kilala ang wushu kaya ako ang ginagawa ko, isinasabay ko ang wushu sa basketball program na sinasamahan ko rin para pag dinagsa ng tao maipakikilala natin yung sports ng wushu," sambit ni Jalasco sa lingguhang Tabloids Organization in Philippine Sports, Inc. (TOPS) 'Usapang Sports' sa Philippine Sports Commission (PSC) Executive Lounge sa Rizal Memorial Sports Complex, Malate, Manila.

Iginiit ni Jalasco na ang wushu ang isa sa martial arts sports na para sa Pilipino at kumpiyansa siya makakasungkit muli ng tagumpay ang Pinoy sa World stage.

"Mga athletes natin nakabatay naman yan sa programa ng training natin. May mga graduate na pero marami tayong mga bata na puwedeng maging pambato in the future," aniya.

## CA junks resort developer's appeal for Panglao reclamation deal

**MANILA** – The Court of Appeals (CA) has denied an appeal filed by a resort developer against the Bohol provincial government for the development of a 450-hectare of land off Panglao Bay. In a four-page resolution dated Feb. 15 and written by Associate Justice Nancy Rivas-Palmones, the court affirmed its 2021 ruling on the case and denied for lack of merit the motion for reconsideration filed by the Oasis Leisure Islands Development Inc. The CA in October 2021 turned down the firm's suit filed against the Bohol provincial government and ruled as void the joint venture development agreement (JDVA) between the developer and the Bohol provincial government over the plans. The ruling reached the appellate court after the

Tagbilaran City regional trial court (RTC) dismissed the case in 2017. "Since the JDVA is ultra vires (done beyond the power) for non-compliance with substantive requirements of the law, it is void ab initio (from the start). Its performance cannot be compelled through an action for specific performance," the tribunal said. The court noted that the Sangguniang Panlalawigan covering the transaction merely authorized then Governor Erico Aumentado to negotiate the terms of the JDVA and does not contain any authorization for the local chief executive to actually enter into the JDVA. The court also noted that the law requires that all reclamation contracts shall go through public bidding. **(PNA)**

## Mental, physical fitness programs vital for employee well-being

**QUEZON CITY (PIA)** -- Civil Service Commission (CSC) Chairperson Karlo Nograles has emphasized that in order to have a healthy and productive workforce, mental and physical fitness programs are needed to promote employee well-being. Commissioners Aileen Lourdes Lizada and Ryan Alvin Acosta also attended the event. "This sports tournament intends to strengthen camaraderie, sportsmanship, and solidarity, and promote an active and healthy lifestyle among all CSC officials and employees. I am happy that you have this activity to manage your work-related stress through sports," he added. Under CSC Resolution No. 1901265 or the Guidelines on the Development of

Mental Health Program (MHP) in the Public Sector promulgated on 23 October 2019, and circularized via CSC Memorandum Circular (MC) No. 4, s. 2020, government agencies are mandated to craft and implement their own Mental Health Program to promote overall mental wellness and provide an inclusive, conducive, and supportive work environment for their officials and employees. Said resolution is anchored on Republic Act No. 11036 or the Mental Health Act of 2018. From a model MHP created by the CSC, strategies to promote employee well-being such as physical fitness, teambuilding, regular stress management, organized peer counseling, support groups, and interest groups can be conducted. There is also a need to organize continuing mental health awareness and education activities for the agency's workforce. Moreover, CSC noted that government employees identified with mental health issues should be provided with intervention, treatment, referral, and reintegration. In case of life-threatening situations or traumatic experience,

"The MMDA and the film industry are both excited and looking forward to the success of the summer film fest which is another avenue to showcase local talent in making world-class Filipino films," he added. "The MMFF's victory is the victory of the whole Philippine film industry." The eight official entries to be included in the film festival will be announced on February 24. They will be selected based on the following criteria: artistic excellence (40%), commercial appeal (40%), Filipino cultural sensibility (10%), and global appeal (10%). The first Summer MMFF will run in all cinemas nationwide from April 8 to 18, with the Parade of Stars scheduled to be held in Quezon City on April 1 and the Awards Night will take place on April 11. **(mmda/pia-ncr)**

## Women dominate TESDA's non-traditional trade skills training

**QUEZON CITY (PIA)** -- The Technical Education and Skills Development Authority's (TESDA) 2021 Study on the Employment of TVET Graduates shows 78.81% or nearly 8 out of 10 female tech-voc graduates were employed which is slightly higher than male graduates with 78.36%. In a statement, TESDA Director General Danilo P. Cruz said that the agency has continuously been giving skills training to women, including non-traditional trades such as construction, welding, work or non-work-related, debriefing interventions should be conducted. Government agencies are also tasked to integrate mental health in human resource development and management policies and programs. For the past years, the CSC has crafted policies and programs promoting physical and mental fitness for government workers. In 1992, the Commission has released MC No. 38 or the Physical and Mental Fitness Program for Government Personnel. In the succeeding years, additional circulars were published to reiterate the need to promote employee wellness. **(CSC/PIA-NCR)**

plumbing, and automotive servicing, among others. "We consider women as priority clients when it comes to the provision of skills training. Through these programs, we reskill and upskill them to widen their employment opportunities here in the country," Cruz said. Meanwhile, the TESDA Women's Center (TWC), the agency's specialized training center for women, provides programs in industrial courses which have traditionally been dominated by men. Since its inauguration in 1998, the TWC has trained more than 9,500 Filipino women. "More than providing women with employable and marketable skills that build their capacities for wage and self-employment, our value-added training gives equal attention to the development of their character, so that the positive contributions of women to society are greatly enhanced," the TESDA chief said. Cruz explained that the agency's continuing thrust will contribute to the goals and targets of the Philippine Development Plan 2023-2028, including promoting entrepreneurship and economic opportunities for women, and reducing the risks faced by other vulnerable groups.

## Rizal, Quezon IPs get 'disturbance fees' for Kaliwa Dam project

**MANILA** – Leaders of Dumagat-Remontado indigenous groups in Rizal and Quezon provinces received Tuesday over PHP160 million worth of "disturbance fees" for the construction of the PHP12.2-billion New Centennial Water Source-Kaliwa Dam Project (NCWS-KDP). In an interview on the sidelines of turnover rites, Metropolitan Waterworks and Sewerage System (MWSS) administrator Leonor Cleofas said that through the National Commission on Indigenous Peoples (NCIP), each indigenous people organization (IPO) of Tanay and General Nakar got PHP80 million in disturbance fees under the memorandum of agreement (MOA). Cleofas said the NCIP will supervise the

implementation of the livelihood programs and projects of these IPOs. She added the agency has been cooperating with the local government of General Nakar in the last six years for the employment of IP communities in the preservation and protection of the watershed in the area. During the turnover rites, Cleofas said the amount of disturbance fees are deposited in the Land Bank (Landbank) of the Philippines accounts of the IPOs. She also expressed her elation over the turnover as this can lead to the continuation of the construction of the Kaliwa Dam. "Sa end of 2026, ay pasisimulan na ang operation ng Kaliwa Dam at fully operational na by January 2027 (At the end of 2026, the Kaliwa Dam will start operations and it will be fully operational by January 2027)," she said. Cleofas said the MOA provides that the 36 IP communities in General Nakar and 10 IP communities in Tanay will be entitled to PHP1 million each in financial assistance every year once the Kaliwa Dam starts full operations in 2027. She said the MWSS is also allocating a financial aid for the resettlement of 66 families which will be affected by the construction of the project. Of the total, 15 IP families will be indemnified for their trees and crops which maybe damaged during the construction of the Kaliwa Dam, she added. **(PNA)** adding that both STAR and iSTAR programs are being implemented in partnership with Coca-Cola Philippines. The STAR program has so far benefited more than 250,000 women and OFWs. With the implementation of the online iSTAR program, potentially even more beneficiaries will be reached. The STAR and iSTAR programs are aimed at helping sari-sari stores become more sustainable and profitable and were designed to help women owners become better entrepreneurs and provide them with support or access to financial resources. **(TESDA/PIA-NCR)**

TESDA Deputy Director General and spokesperson Aniceto D. Bertiz III for his part also shared that during the pandemic, more than 1 million OFWs who were displaced and repatriated back to the country urgently needed reskilling and upskilling. "TESDA provided assistance and training to more than 630,000 OFWs, some of whom were displaced or repatriated, as they are also considered priority clients by the agency. Through this assistance, these OFWs were able to land even better jobs abroad or have decided to start their own businesses locally," said Bertiz. TESDA is also empowering women as well as OFWs by providing entrepreneurial training through the Sari-Sari Store Training and Access to Resources (STAR) Program and iSTAR Program. The STAR program has been used continuously since before the pandemic and proved effective in reskilling distressed Filipino migrant workers in Bahay Kalinga shelters such as the one in Kuwait. "The iSTAR program is for everyone who is willing to start a business and is accessible through the TESDA Online Program," Bertiz noted,

## DOST Balik Scientist discovers antimicrobial compounds for new antibiotics from Philippine biodiversity

A Department of Science and Technology – Balik Scientist makes headway in drug discovery and development in the country by isolating antimicrobial compounds to be used in formulating new antibiotics. Dr. Julius Adam V. Lopez is a DOST Balik Scientist hosted by the University of San Agustin (USA) in Iloilo City. His work focused on capacity-building initiatives in handling the Nuclear Magnetic Resonance (NMR) technology among Filipino researchers in the Visayas and Mindanao region. Through this initiative, he was able to isolate and elucidate the structure of novel and/or bioactive compounds from cultured marine actinomycetes in the biobank of USA using the NMR. Specifically, Dr. Lopez used the NMR to purify the marine samples and identify  $\beta$ -lactamase inhibitors which prevent antimicrobial resistance and improve efficacy of antimicrobial treatment. This study has been done under the Philippine marine (PHILMARINE) - beta-lactamase inhibitor (BLI) project also in USA. DOST Secretary Renato U. Solidum Jr. expressed his excitement about the potential impact of Filipinos gaining knowledge on using the NMR, stating that "Advancing our efforts in drug discovery and development and building the NMR competency within the Visayas and Mindanao regions shall help us address perplexing health issues and opens avenues for locally available, accessible, and practical solutions. The NMR is a powerful tool to study molecular structures and dynamics of complex systems and widen our understanding of the world we live in which includes discoveries of anti-cancer drugs and antibiotics." DOST Undersecretary for R&D Leah J. Buendia added "We need to strengthen and optimize our country's R&D portfolio in drug discovery and development. Through expertise engagement like

the DOST Balik Scientist Program, we can be part of R&D milestones such as creating the first team of Filipino NMR spectroscopy experts who all have the capacity to discover and formulate new drugs. This engagement will also create a big difference in the earning potential of local pharmaceutical and biotechnology companies." DOST Balik Scientist Dr. Julius Adam V. Lopez has extensive experience in natural products chemistry and NMR Spectroscopy. He took his doctor's degree in Hokkaido University, Japan. By using advanced NMR techniques, Dr. Lopez then led the discovery of new cytotoxic cyanobacteria termed as wewakazole B and new fatty acids amides, columbamides which are the fundamental blueprint or structures for several medicinal drugs. In this engagement with the USA, Dr. Lopez developed an NMR training module with both theoretical and practical aspects of the NMR spectroscopy. He served as trainer on theory and practical skills for researchers from the academe and industries such as University of San Agustin, Mindanao State University – Iligan Institute of Technology, Central Mindanao University, University of Southern Mindanao, and DOST Regional Office VI. Widening the skillset among Filipino researchers especially for researchers outside Greater Manila in using the NMR creates significant implications for the development of new antibiotics and other drugs. The presence of an NMR in the Visayas will fast-track isolation and identification of novel compounds as these address logistics requirements of spending cost to ship samples to Manila. The Balik Scientist program is an initiative of the Department of Science and Technology and is part of the Philippine government's efforts to build a strong science and technology ecosystem in the country.

The enactment of the Balik Scientist Act in June 2018 paved the way for DOST to grant returning Filipino scientists with competitive benefits such as daily subsistence allowance, health insurance, and roundtrip airfare. For those interested to become a Balik Scientist, you may contact the DOST Balik Scientist Program Management Office thru email at bsp@dost.gov.ph. (30)

## DOJ seeks closer coordination with police, fiscals

**MANILA** – Justice Secretary Jesus Crispin Remulla on Tuesday said more reforms will be implemented in the coming days for the prosecution service, including plans to forge closer cooperation in the case buildup stage to ensure quality indictments. "Meron din kaming case buildup rule na inaayos na, ang mga prosecutor at ang pulis ay sabay na silang magtatrabaho. 'Yan ang mahalaga na bawat -- halimbawa may nahuli ang pulis, idedemanda na niya, kailangan makikipag-usap siya sa prosecutor para lahat ng ebidensyang kinakailangang makalap upang ma-convict ang tao ay maipon doon (We are also working on a case buildup rule that we are finalizing where prosecutors and police will work alongside each other. That is important once a policeman detains a suspect, he must coordinate with the prosecutor before filing charges to ensure all the evidence needed for the conviction will be gathered)," Remulla said. The effort targets higher rate of success in prosecution, he said. "Kaya nga itong antas ng pagtingin sa probable cause at sa reasonable certainty of conviction, yan ang aming nilalagay ngayon upang mas malakas ang pag-asa na ang prosecution ay maging epektibo na kapag dumating ang panahon na ang tao ay dinimanda ng prosecution ay malamang lamang ma-convict ang tao kasi nga tinataasan natin yung antas ng pruwenga na kinakailangan upang ang kaso ay maging malakas bago i-file ng mga piskal (We are improving the

**MANILA, (PIA)** -- The Lupong Tagapamayapa (LT) in more than 42,000 barangays in the country must now pass a more intensified assessment criteria before getting the 2023 Lupong Tagapamayapa Incentive Awards (LTIA), according to Department of the Interior and Local Government (DILG) Secretary Benjamin "Benhur" Abalos, Jr. "We are jumpstarting LTIA 2023 with an enhanced

standards for determining probable cause and reasonable certainty of conviction, that is what we are doing to ensure that those charged by prosecutors will likely be convicted)," he added. Remulla met with Supreme Court officials on Tuesday to discuss the possible reforms in the justice sector. On Monday, the DOJ announced new guidelines for prosecutors reducing the recommended bail in criminal cases for temporary liberty to PHP10,000 for indigents. In Department Circular O11, the prosecutor in cases involving indigent respondents shall only indicate 50 percent of the recommended bail as stated in the 2018 Bail Bond Guide or PHP10,000, whichever is lower. The measure along with an earlier circular, Department Circular 008-A, only quality criminal cases backed by credible evidence will have the effect of "decongesting court dockets," the DOJ said. The new rule applies to all cases undergoing inquest or preliminary investigation of indigents if these do not include punishable by death, reclusion perpetua or life imprisonment. The reduced bail is eyed to prevent the detention of individuals for crimes that are in fact bailable but are unable to afford the amount set by the court. The measure was brought as an offshoot of the recently concluded Justice Sector Coordinating Council (JSCC) dialogue last month, which included discussions on overpopulation and

criteria and guidelines to elevate the performance of LTs in the barangay. We wish to strengthen the LTs in order to better promote Katarungang Pambarangay (KP) in the communities," said Abalos. "Our Lupong Tagapamayapa are our frontliners when it comes to maintaining peace and order at the grassroots. Which is why it is important that we update our policies on this every now and then," he added. The LTIA is the annual recognition of outstanding LTs that include the Punong Barangay and ten to twenty members assigned to solve cases referred to them and implement and disseminate KP in their area.

According to Abalos, it is timely to update the assessment criteria of the LTIA to ensure even faster resolution of cases brought to the LT by the barangays. He added that the LTIA awarding policy was last amended in 2016. Through DILG Memorandum Circular (MC) No. 2023-022, Abalos stated that one of the changes in the LTIA guidelines is the larger points in the settlement and award period criteria, where at least ten must be filed with the Board and the case resolved through mediation, conciliation and arbitration within the stipulated period. ## P1-T investment target for 2023 possible

**QUEZON CITY (PIA)** -- The Philippine government has already secured nearly half of its full-year target for investment approvals in just six weeks at the onset of 2023. Department of Trade and Industry-Bureau of Investments (DTI-BOI) reported that with investment approvals on the rise for January 2023 amounting to P414.3 billion, it expects to hit its P1 trillion investment approvals annual target for this year. The bulk of foreign capital is from Germany with P157 billion followed by the Netherlands with P2.7 billion, Japan with P524 million, the United States with P509 million, and the United Kingdom with P194 million. Meanwhile, Trade Secretary Alfredo Pascual said the sectors expected to receive the highest investments include the renewable energy market, infrastructure, manufacturing, information

technology, and business process management. As the Philippines continues to receive serious interest from global investors the government still expects to receive more investment in the coming months. "So far, the agency still has potential investment leads of around P344 billion that will still be processed, and more likely than ever, we may have 80 to 90 percent of the target even before the middle of the year," Secretary Pascual said. These increases in investments are the outcome of the aggressive but strategic promotion initiatives being led by President Ferdinand R. Marcos Jr. during his various business trips abroad. This is in line with the goal of the Chief Executive to put the Philippines at the top of mind among global investors. Complementing also these aggressive investment promotion efforts, Trade Secretary Pascual said the country is off to a great start in 2023 with the strong performance of the economy with a 7.6 percent GDP growth. This shows the strong commitment of the current administration to pursue various investment agreements to improve the economy and provide high-quality jobs for the people. (KSAA – PIA CPSD)

**DALAWANG** truck helper ang inaresto nakaraang umiskor ng mahigit P7K halaga ng diaper sa Gen Trias City, Cavite Miyerkules ng umaga. Hawak ng Gen Trias City Police ang mga suspek na sina Christian Mark Aragon, 19; at Jonnel Fortes, 19, kapwa helper ng Ricardo S. Calderon Trucking. Sa ulat ni Corporal Jhocel Dayumat, ng Gen Trias City Police, idiniliver ng dalawa ang mga kahon ng EQ Diaper sa All in One Merchandise Specialist sa Brgy Manggahan, Gen Trias City dakong alas-

Sa imbestigasyon, nagsabwatan ang dalawa na buksan ang sealed lock ng truck at saka tinangay ang 20 kahon ng diaper na nagkakahalaga ng P7,310. Nadiskubre ang nasabing mga tinangay na diaper na nakatago sa head roof cover ng truck. Kasong Qualified Theft ang kinaharap ng dalawa. **GENE ADSUARA**

## P240K marijuana, nakuha sa binata

**PATULOY** ang operasyon ng Quezon City Police District (QCPD) laban sa mga ilegal na droga sa mga lugar na nasasakupan nito kung saan isang binata ang nahuli at tinatayang umaabot sa P240K ng marijuana ang nasamsam ng mga pulis sa Novaliches sa Lungsod Quezon.

ang mga tauhan ni PLTCOL Castillo sa suspek ng mahigit kumulang na dalawang kilo ng marijuana na nagkakahalaga ng P240,000.00 na nakalagay sa isang SM eco bag; isang cellular phone na ginagamit umano sa mga transaksyon ng suspek at ang buy-bust money na ginamit ng mga pulis. (**Paulo B Flores**)

Ayon kay QCPD Director Police Brigadier General Nicolas D Torre III, ang nadakip na si Alvin Reyes, 21, ay sinasabing isa umano sa mga drug peddlers at itinuturing na No. 5 Station Level Drug Priority Targets ng pulisya. Sinabi ni General Torre na si Reyes ay nadakip ng mga tauhan ni PLTCOL Jerry Castillo, hepe ng Novaliches Police Station (PS 4) sa isang buy bust operation na isinagawa sa pansamantalang tinutuluyan ni Reyes sa No. 21 San Ignacio St., Villareal, Barangay Gulod, Novaliches, ganap na alas 2:00 ng madaling araw nitong ika-18 ng Pebrero. Batay sa ulat ni PLTCOL Castillo kay General Torre, nakatanggap ng impormasyon ang mga pulis, partikular na ang Station Drug Enforcement Unit ng Novaliches Police Station (PS-4) na sangkot umano si Reyes sa pagbebenta ng mga ilegal na droga sa naturang barangay kaya nagkasa ang mga ito ng buy bust operation kung saan nahuli ang suspek. Ito ay dahil bago naganap ang sunog ay nagkaroon ng pagtatalo sa pagitan nina Palos at asawa nito. Pagkatapos ng pagtatalo ng mag-asawa ay umalis ang ginang at nagbanta na si Palos na kung hindi babalik ang asawa ay susunugin nito ang kanilang bahay. Kasunod ay nagkulong na si Palos sa bahay para sa pagsasakatuparan ng panununog. ## Fertilizer Discount Voucher, ipinamahagi sa 1,587 magpapalay

**REAL, Quezon (PIA)-Umabot sa P8,254,031.94 na Fertilizer Discount Vouchers (FDV) ang ipinamahagi ng Department of Agriculture IV-CALABARZON (DA-4A) sa 1, 587 magpapalay noong ika-16 ng Pebrero, sa Real, Infanta, at General Nakar, Quezon.** Ayon sa Department of Agriculture-IV-A, ito ay alinsunod sa patuloy na implementasyon ng FDV Program ng DA na sumusuporta sa mga maliliit na magpapalay at nagsisiguro ng patuloy na produksyon ng palay sa bansa. Sa ilalim ng programa, ang mga benepisyaryo ay mga magsasaka na rehistrado sa Registry System for Basic Sectors in Agriculture, nakatala ang pangalan sa Farmers and Fisherfolk Registry

System, at magtatanim ngayong darating na dry cropping season. Ang bawat FDV ay maaaring magkahalaga ng P6,600 kada hektarya hanggang P13, 200 depende sa lawak ng sinasaka. Maaaring magtungo sa DA-accredited fertilizer merchants sa kanilang munisipyo o makipag-ugnayan sa kani-kanilang CityoMunicipalAgriculturist Office para sa scheduled caravan distribution ang mga nakatanggap ng FVD. Samantala, ikinatuwa ni Karen Luzano, magsasaka mula sa Brgy. Pamplona, General Nakar, ang ginawang pamamahagi dahil kahit maliliit na magsasaka sila ay hindi sila kinalimutan ng ahensya. Pinangunahan ng DA-4A Rice program ang tanggapan ni Quezon First District Representative at House Committee Chairman on Agriculture and Food Cong. Wilfrido Mark Enverga, Quezon Agricultural Program Coordinating Office, at Lokal na Pamahalaan ng mga naturang bayan. (**RMO/PIA-Quezon may ulat mula sa DA-4A**)

## 2 tumakbo sa checkpoint, dedo sa enkuwentro

**SA** kagustuhang iwasan ang ipinatutupad na checkpoint ay tumakbo at nanlaban pa sa mga awtoridad ang dalawang lalaki na naging sanhi ng kanilang kamatayan sa Cotabato kamakailan. Wala pang pagkakakilanlan ang nasabing dalawang lalaki na sakay ng motorsiklo. Kasalukuyang nagsasakatuparan ang Kabacan Municipal Police Station ng checkpoint at napadaan ang dalawa. Pinapapara ng mga awtoridad ang dalawa subalit sa halip na huminto ay lalong binilisan ang pagpapatakbo ng

motorsiklo para iwasan ang checkpoint. Dahil dito ay humabol ang mga pulis upang pasukuin ang dalawa na unang nagpapatok ng baril. Napilitan na ang mga pulis na magpapatok na rin ng baril na nagresulta sa pagkamatay ng dalawa bagaman nakuha pang maisugod sa pagamutan subalit kapwa idineklarang dead on arrival. Bukod sa isang 45 caliber pistol at mga bala ay nakuha rin sa pag-iingat ng dalawa ang umano'y plastic na naglalaman ng hinihinalang shabu. **RUBEN LACSA**

### Katotohanan batay sa dokumento

**KAKAPUSIN** na ng oras o panahon at kailangang matamo ang hinahangad na panalo. Ang tanging naisip na paraan upang masungkit ang panalo ay ang pandaraya. Masakit na katotohanan subalit sadyang nangyayari ang ganitong uri ng pamamaraan. Ginagawang mandaya dahil ayaw tumanggap ng pagkatalo. Hindi lamang sa simpleng laro o ano mang laban nangyayari ang dayaan. Maging sa mga papel o ang tinatawag na mga dokumento ay nariyan din ang pandaraya. Mayroong likas na malakas ang loob kahit pa na may ilang pandaraya

sa mga dokumento ay walang kaba o takot. Pwedeng makakalusot dahil hindi ganap na narebisa o napag-aralan ang mga isinusumiteng dokumento. Lalo na iyong nandadaya ay maboladas na sa pakiwari at paningin ng iba ay walang bahid na maling ginagawa. Tandaan lamang na hindi lahat ng nasa paligid na tahimik lamang ay wala ng pakialam. Ang mga tahimik na iyan kapag lumikha ng ingay ay katotohanan ang ibubuga batay sa mga dokumento. Pinakamaganda sa lahat ay lumaban ng patas at huwag mandaya.
