BFAR: FISH, SHELLS FROM CAVITE WATERS STILL UNSAFE TO EAT

MANILA – Fish and shellfish from the coastal waters of Cavite province remain unfit for human consumption, the Bureau of Fisheries and Aquatic Resources (BFAR) said Tuesday.

In a statement, the BFAR said this is based on its on-ground sensory evaluation of fishing areas and communities surrounding Manila Bay in the aftermath of last month's oil spill in Bataan province.

The clarification was issued amid the call of fishers' group Pambansang Lakas ng Kilusang Mamamalakaya ng Pilipinas (Pamalakaya) to lift the fishing ban imposed in the eight coastal municipalities of Cavite, saying these were not affected by the oil spill. In response, BFAR said the "no catch and no-sell zone for all shellfish in the coastal areas of the province of Cavite" based on Executive Order No. 38 issued on July 31 is still in effect.

The BFAR explained that fish samples are regularly collected and analyzed for traces of oil and grease and the presence of harmful contaminants called polycyclic aromatic hydrocarbons (PAH) since the sinking of MTKR Terranova and MTKR Jason Bradley on July 25 and July 27, respectively, and the grounding of the MV Mirola 1 on July 31 in the waters off Bataan.

"These tests are important to ensure that fish caught in the potentially affected areas are free from contamination and safe for public consumption," the agency added.

Moreover, all fishing activities within the four-kilometer radius of the location of MTKR Terranova in Bataan, particularly Limay, and Barangay Cabcaban in Mariveles remained prohibited, based on Executive Order 32 issued on Aug. 1

NCR, Central Luzon waters safe. Meanwhile, shellfish from the coastal waters off Bataan, Bulacan and

Pampanga in Central Luzon, as well as Navotas, Manila, Parañaque and Las Piñas in the National Capital Region are free from oil and grease contamination and are fit for human consumption based on analysis from samples submitted between July 29 and Aug. 12, the BFAR added.

Moreover, sensory evaluation of fish samples from Batangas, particularly in Nasugbu, Lian, and Calatagan, conducted on Aug. 9, showed that all samples were negative for traces of oil and grease.

The BFAR said the agency will maintain fish sampling and conduct a sensory evaluation to determine the presence of oil and grease in potentially affected areas and ensure the safety of the consuming public.

The agency encouraged fisherfolk and the public to remain calm and monitor the situation through updates issued by relevant authorities. (PNA)

PNP launches mobile app to improve visibility, efficiency

CALAMBA CITY, Laguna (PIA) – Help is just a tap away as the Philippine National Police Regional Office IV-A launches a new mobile application which aims to enhance public safety and service efficiency in Calabarzon.

During the Kapihan sa Bagong Pilipinas on August 6, PRO IV-A Regional Director Police Brig. Gen. I Paul Kenneth Lucas discussed the app, dubbed as the Protect Our Community's Well-being through Effective Services and Response or P.O.W.E.R. Services App, emphasizing its role in improving police services, enhancing transparency, and promoting public safety across the region.

"If you have downloaded it and you are going somewhere and you are missing, you can open it. The app will tell you where you are, where is the nearest police station, where is the nearest hospital, everything is there. When you need

MANILA – A segment of the Manila-Cavite Expressway (CAVITEX) will remain toll-free until the Toll Regulatory Board (TRB) approves the resumption of toll collection, the Philippine Reclamation Authority (PRA) said Tuesday.

In a statement, the PRA said the toll holiday declared by President Ferdinand R. Marcos Jr. for all CAVITEX segments in Parañaque, Las Piñas, Taguig, Bacoor, and Kawit ended on July 31.

"However, all motorists coming from Cavite exiting to Segment 2 of C-5 Link and vice versa remains toll-free and continues to benefit thousands of motorists," it said.

The PRA noted a rise in the average daily vehicle count across all segments of CAVITEX – from 171,000 to 200,000 – during the toll holiday

"This uptick underscores the positive externalities associated with improved infrastructure, as the new segment is anticipated to enhance travel efficiency

an example you will apply PSA, you will just download it. You will apply for a firearms license, you can use it", Lucas said.

The app is aligned with the pronouncement of President Ferdinand R. Marcos Jr. that police forces should focus on public safety, integrating secure and AI-driven technology into police operations.

The mobile application is internet-based, and with user-friendly design to provide a seamless platform and one-stop shop solution for emergency as it offers variety of services such as: emergency assistance, PNP Internal Services, community engagement, Bagong Pilipinas Services, list of local tourist destination, public safety information and advisories, news and updates, downloadable resources, tools, events, and RD's Corner.

"This POWER APP is a product of a wild imagination of our

CAVITEX segment to remain toll-free

and reduce transaction costs and traveling time for commuters, thereby boosting overall economic productivity," it said.

On June 21, Marcos led the inauguration and groundbreaking of several portions of CAVITEX.

He thanked the PRA for recommending a 30-day toll holiday in all segments of the expressway to ease financial pressure on motorists amid the continued rise in fuel costs. The toll holiday, he said, would also help introduce the newly built segments to motorists. (PNA)

NIA contract farmers in Laguna begin cropping for Dec. rice harvest

CALAMBA CITY, Laguna – The National Irrigation Administration (NIA) 4A (Calabarzon) has commenced a new rice contract farming initiative in collaboration with an irrigators' association (IA) in Santa Maria town, Laguna province, that will pave the way for the availability of low-priced rice.

The program will cover 87 hectares of rice fields, aiming for a December harvest. The harvested rice will be sold at Kadiwa outlets for PHP29 per kilogram.

Vince Santoalla, public relations officer of NIA 4A, said in a phone interview on Wednesday that this contract farming project, managed by the NIA Laguna-Rizal Irrigation Management Office (LRIMO), is the last rice

command group and our regional staff because when PGEN [Rommel Francisco] Marbil sat down with us he said, "I want the police to be on the street, how can we do that?" So, our command group and regional staff saw and studied what we were going to do", Lucas stated. The police director emphasized that they intend to stay true to the commitment of 'help is just a tap away' through the app as another platform for their community engagement initiatives. 5 foreigners, 24 Filipinos arrested in Cavite scam hub

MANILA – The National Bureau of Investigation (NBI) reported on Tuesday the arrest of five foreign nationals operating an online scam hub in a Cavite suburb.

The NBI Cybercrime Division arrested Chinese Shang Guan Jian Bao, Guan Pei Hong and Masi Yi, and Malaysians Jenny Tan Sue Tzen and MKong Yee Xin during a raid in Kawit on Aug. 9, according to a news release.

Twenty-four Filipino workers were also apprehended.

The illegal operation, spread in four residential

houses at Grand Centennial Homes, used computers and other electronic devices for romance, investment, crypto and impersonation scams, and credential stuffing (using stolen usernames and passwords).

"(The) workstations are said to be operated and manned by Filipinos under the direct control and supervision of foreign nationals," the NBI said.

Also uncovered was a "scam showroom" with counterfeit luxury items and high-end products displayed to deceive potential victims.

The scammers used electronic devices, such as desktop computers, laptops and mobile phones with scam scripts.

The NBI said all suspects face charges of violation of Republic Act Nos. 10175 (Cybercrime Prevention Act of 2012) and 12010 (Anti-Financial Account Scamming Act). (PNA)

the proper utilization of these resources.

Land preparation is already underway, with planting expected to start soon.

"NIA supports the farmers throughout the entire process, from planting to selling, with a guaranteed income as the agency will purchase their produce," Santoalla said. (PNA)

DTI fetes Calamba City for championing creativity, innovation

CALAMBA CITY, Laguna – The Department of Trade and Industry (DTI) has cited the local government unit (LGU) of this city as 2024 Lunsod Lunsad Awardee for championing creativity and innovation.

DTI-Calabarzon Assistant Regional Director Revelyn Cortez said in an interview on Wednesday that the Lunsod Lunsad Award is the agency's way of boosting competitiveness and creativity among cities across the country.

He said Calamba got the award because of the impressive culinary presentations amid a lake scenery during the "Calambagong Fiesta: Taste, Style and Creativity Fair" held during the Buhayani Festival last June.

Cortez said that out of more

than 160 cities that submitted their projects and activities for this award, 63 cities qualified, of which seven are in Calabarzon and one of them was Calamba City.

She added Calamba City will receive a cash incentive of PHP1.275 million to fund its identified creative projects starting September until November this year only through the city's Cultural Affairs, Tourism and Sports Development Office (CATSDO).

"We would like to find out what other creative projects here in Calamba City that will help boost its competitiveness in the region or in the country," Cortez said.

"DTI is willing to work with them (CATSDO) in realizing their lined-up projects," she added. (PNA)

Compassion On Wheels, Transforming Lives with Healthcare Initiatives

In a culture where birthdays are often marked by personal indulgence, Anna Donita S. Tapay has chosen a different path, turning her special day into a lifeline for the needy. As a dedicated partner of the Arnold Janssen Kalinga Foundation, Tapay celebrated her birthday and the foundation's 9th anniversary with an extraordinary act of kindness: a comprehensive medical mission. Through her innovative project, Hospital on Wheels, she provided essential healthcare services—including major surgeries, dental check-ups, and eye examinations—to those who need them most.

Tapay's unwavering commitment to the underprivileged is exemplified by her efforts to ensure holistic transformation. "We won't only stop by feeding them, by giving them education but also we want to provide a good quality of service in the form of medical, optical, and dental services," she stated passionately. This mission aligns perfectly with the foundation's broader goals of providing comprehensive support to the poor. In the days leading up to the medical mission, Tapay also organized a feeding program, providing nutritious meals to those in need. This initiative ensured that the community was well-fed and in good health, paving the way for the success of the medical mission.

The Hospital on Wheels, one of Tapay's key projects, served as the centerpiece of the celebration. The mobile unit, staffed by 60 to 70 doctors, offered a range of medical services to the homeless and underserved communities. The mission was made possible through Tapay's generous sponsorship. On the day of the medical mission, the following services were provided: 199 surgeries, 175 medical consultations, 101 dental check-ups, 105 vision screenings, and 27 basic life support seminars. In total, 607 patients were served within that day.

This extraordinary initiative not only provided critical healthcare services to the foundation's beneficiaries but also reached out to the residents in the surrounding area. By doing so, Tapay's mission created a ripple effect of compassion and support, transforming lives and fostering a sense of community among the most vulnerable. Her dedication turned a simple birthday celebration into a beacon of hope and care for those in dire need.

In addition to the Hospital on Wheels, the Arnold Janssen Kalinga Foundation and Ms. Tapay continue to run several other vital programs. "We have other ongoing projects like Oplan Birtright, Kasalang Bayan, and Binyagang Bayan, all of them beneficial for the homeless because those are the primary needs of a human being," Tapay explained. Her dedication to holistic support for the poor reflects the foundation's commitment to addressing the multifaceted needs of the disadvantaged.

The Natural Dyes Hub in Abra is launching soon!

The Department of Science and Technology - Philippine Textile Research Institute (DOST-PTRI) inked a Memorandum of Agreement with the University of Abra (UAbra), formerly Abra State Institute of Sciences and Technology (ASIST) and the Department of Science and Technology - Cordillera Administrative Region (DOST - CAR) to establish the second Natural Dyes (NatDyes) Hub in La Paz, Abra.

This is the 3rd NatDyes Hub in CAR and the 14th in the country. This agreement was formalized during the opening ceremony of the 2024 Regional Science, Technology, and Innovation Week (RSTW) in Cordillera Administrative Region (CAR) held at the Heritage Convention Center in Ifugao State University on August 7, 2024. The collaboration

IPOPHL, FIS partner to provide IP support to more local inventors

THE Intellectual Property Office of the Philippines (IPOPHL) has signed a memorandum of understanding (MOU) with the Filipino Inventors Society (FIS) to help inventors protect their intellectual property (IP) and move further in commercializing their technologies here and abroad.

The MOA was signed between IPOPHL Director General Rowel S. Barba and FIS President Dr. Ronald P. Pagsanghan last week at the IPOPHL office in Taguig City.

Under the MOU work plan, which will lay down the specific activities both parties will respectively and jointly undertake, IPOPHL will capacitate FIS to provide IP expertise to its members and technical assistance under the Inventor Assistance Program (IAP), extend support on enforcement concerns, and help build stronger linkages between the group's inventors and agencies that can boost their exposure in local and international markets.

IPOPHL will also work to establish a registry of all inventors and innovators and their patents.

For its part, the FIS will

actively support and work with IPOPHL in raising awareness, promoting respect in IP, and encouraging its members to register and enforce their IP rights, as well as their technology transfer agreements.

Together, IPOPHL and FIS will support each other's endeavors towards elevating the country's innovation scene.

"This partnership will undoubtedly encourage other Filipinos to start their IP journey that can lead to more creations that could change society for the better," DG Barba said.

DG Barba committed that IPOPHL will ensure that FIS members will be provided support in availing its incentive programs for independent and starting inventors, which include, among others, the agency's Inventor Assistance Program, which links independent inventors to pro bono patent experts for assistance in patent application processes; the Youth IP Incentive Program, which waives certain fees and provides start-to-finish customer support in IP application; and the Juana Patent and Juana Design Protection Incentive Program, which waives some application fees for eligible women inventors.

Dr. Pagsanghan said the IPOPHL-FIS collaboration "extends beyond just rankings and membership," and marks inventors' increased trust in government and commitment to help boost the Marcos administration's goal of pushing the Philippines to leap higher in the Global Innovation Index ranking by 2028.

He shared that "inventors fear that sharing their invention prototypes with institutions will expose their future IP assets to theft. This fear dampens the spirit of collaboration and the inspiration of inventors who only seek to further the development of technologies that Filipinos could be proud of but are instead discredited from what they have created."

"Through this MOA, we encourage our members to protect and commercialize their inventions, ensuring they receive the recognition and compensation they deserve. This partnership is more than just rankings and membership: It is also about empowering our inventors to dream bigger,

aim more, and contribute significantly to our nation's progress together with the support of IP capabilities we look forward to developing through IPOPHL's assistance and dedication," he added.

The FIS was established in 1943, making it the oldest state-mandated institution to support inventors and advocate for the progress of the local innovation landscape. It is the largest inventor society in the country, with a membership of over 500 members nationwide who have met the group's membership requirement of having at least one registered patent or utility model.

The FIS is also the Philippine representative for and serves as a voting member at the International Federation of Inventors' Associations (IFIA) based in Geneva, Switzerland.

him the title "Father of Philippine Nematology."

Davide obtained his Bachelor's degree in Agriculture – Plant Pathology from the University of the Philippines Los Baños in 1957, his Master's degree in Plant Pathology from Oklahoma State University in 1962, and his Doctorate in Nematology-Plant Pathology from North Carolina State University in 1965.

In recognition of his outstanding contributions, Davide was elected to the National Academy of Science and Technology, Philippines (NAST PHL) in 2002, further cementing his status as a distinguished figure within the scientific community.

The Order of National Scientist Award (Orden ng Gawad ng Pambansang Alagad ng Agham) is the highest national recognition given to a man or woman of science in the Philippines, administered by the NAST PHL, and conferred by the President of the Philippines upon recommendation of the Academy. **(JVD/PIA-NCR)**

PVL Press Corps Player of the Week - Capital1's Marina Tushova

Siyam na araw pagkatapos itakda ang pinakamataas na scoring output sa isang laro sa Premier Volleyball League, winasak muli ng import ng Capital1 na si Marina Tushova ang mga record book, na nakaipon ng 49 puntos upang bawin ang kanyang koponan mula sa dalawang set papaba at mag-orkestrate ng reverse sweep ng Nixed sa Pool D ng 2024 Reinforced Conference.

Ang alamat ni Tushova sa pioneering volleyball league ng bansa ay patuloy na lumalaki habang siya ay naghatid ng isa pang PVL-high 46 kills na may 51 percent attack rate sa ibabaw ng dalawang ace at isang kill block para pangunahan ang Solar Spikers sa come-from-behind 20-25, 20-25, 25-16, 25-19, 15-6 panalo laban sa Chameleons sa PhilSports Arena Pasig City.

Ang Russian spiker ay lumabas bilang isa sa mga pinaka-prolific scorer na naglaro sa PVL matapos lampanan ang kanyang 45-point record laban sa Choco Mucho para lampanan ang Dominican import ng Akari na si Prisilla Rivera na 44 noong 2022.

Ang pare-parehong performance ni Tushova at ang kahanga-hangang pagpapakita ng kahusayan sa pag-iskor ay nakamit nito ang PVL Press Corps Player of the Week na iniharap ng Pilipinas Live para sa panahon ng Agosto 6 hanggang 10.

Para sa 25-anyos na hitter, gayunpaman, ang kanyang scoring output ay kumakatawan sa higit pa sa isang personal na milestone, ito ay isang patunay sa kanyang patuloy na ebolusyon kahit na may karamdamang pinsala sa kanang kamay. "Malaki ang ibig sabihin nito, nangangahulugan na bumubuti ako, talaga," sabi ni Tushova, na nagtakda ng nangungunang dalawang talaan ng pagmamarka sa loob ng 10 araw.

"Magandang simula ito na nagawa ko, ginawa namin ang nararapat naming gawin nang magkasama, at ngayon naramdaman kong nasa kondisyon ako. Hindi ko naramdaman na nasa ibang lugar ako.

Umaatake lang ako at hindi maka-score, minsan, pero mas kumportable ako sa court at mas confident." Si Tushova, na umiskor ng 32 puntos laban sa ZUS Coffee upang tapusin ang unang round, ay pinagkaisang binoto ng beat reporters mula sa print at online news outlet para sa ikalawang sunod na linggo.

Nang talunin ang magkaksmpi ng Akari na sina Oly Okaro at Gretthel Soltones, Wilma ng Petro Gazz Salas, Lena Samoilenco ng PLDT, Bernadeth Pons ng Creamline, at Ara Galang ng Chery Tiggo.

Ang mga kaganapan ay nakahanap para sa Capital1 bilang ang 6-foot spiker ay nagawang matupad ang kanyang pangarap na makipag kumpetensya sa Pilipinas, na ang pagkakaiba para sa pagbangon ng Solar Spikers mula sa cellar-dwellers tungo sa mga contenders ng midseason tournament, na mapapanood ng live stream at on-demand sa pamamagitan ng Pilipinas Live App at www.pvl.ph. "Ang layunin ko ay maglaro dito.

Nakatanggap ako ng imbitasyon ilang taon na ang nakalipas ngunit hindi kami nagkasundo sa pagitan ng koponan. Naghanap talaga ako ng team dito, mabuti nahanap nila ako sabi ni Tushova. "Ito ay isang mahusay na karanasan. Gusto kong makakita ng mga tao, gusto kong makakilala ng mga bagong tao.

Ang uri ng karanasan na ito ay hindi mo matutuhan araw-araw. Napakaganda nito." Dahil sa menor de edad na pinsala sa kamay na natamo niya sa pagsasanay, binihag ng go-to ace ng Capital1 ang mga tagahanga ng volleyball sa kanyang propesyonalismo, na nakakuha ng mataas na papuri mula kay coach Roger Gorayeb.

"Masaya lang ako. As I've said before, I would prefer see Marina on our side than play against her," sabi ni Gorayeb. "She's always there to play no matter what. Ganyan dapat ang mga propesyonal na manlalaro. At napaka-professional niya. Alam niya na kailangan siya ng team, kaya kahit anong mangyari naglaro siya." Dala ang franchise-best three-game winning streak para sa 4-2 record, si Tushova at ang Solar Spikers ay isang panalo ang layo mula sa kanilang kauna-unahang PVL playoffs, na naghangang na selyuhan ang quarterfinal berth laban sa Farm Fresh.

FILAM RIANNAH CHANTELE COLEMAN GOLD MEDALIST - PAI SPORTS NATIONAL TRIALS

BUONG lakas na umarangkada ang Filipino-American na si Riannah Coleman sa kanyang pag langoy ng Breakstroke style sa nilahukan nitong Philippine Aquatics, Inc. FilAm Coleman nagpa siklab sa Philippine Aquatics, Inc. National Sports Trials

Tulad ng inaasahan, maagang nagpamandan ang mga Filipino-foreign swimmers sa pangunguna ni Filipino-American Riannah Chantelle Coleman sa pagsisimula ng Philippine Aquatics, Inc. (PAI) 50-meter (long course) National Sports Trials sa Teofilo Ydefonso swimming pool sa Malate, Manila.

Nalagpasan ng 15-anyos na si Coleman, isang regular na campaigner sa local swimming circuit, ang 33.98 segundo Southeast Asian Age Group Qualifying Standard Time (QTS) para sa mga batang babae 14-15 50-meter breaststroke sa impresibong 33.96 para makamit ang gintong medalya.

Tinalo ng protegee ni coach Dax Halili ng Dax Swim Club sina Krystal Ava David ng Golden Sea Eagles (34.69) at Jamaica Enriquez ng Pangasinan (35.62) sa event na suportado ng Speedo, Pocari Sweat at Philippine Sports Commission (PSC).

medyo may sinat na kaya nagdecide kami na scratch na lang yung event today," pahayag ng ama ni Sanchez na si Noel.

Ayon kay PAI Secretary General Batangas 1st District Congressman Eric Buhain, ang Trials ang gagamitin bilang proseso ng pagpili ng mga niyembro ng National training pool na kakatawan sa bansa sa nakatakdang international competition ngayong taon hanggang sa unang dalawang quarter ng 2025.

"Huwag niyong sayangin ang pagkakataon. Kung ano ang mga natutunan niyo sa training, gawin niyo ang lahat ng inyong makakaya. Kami po sa PAI ang bahala pag nakasama kayo sa National Team," pahayag ni Buhain sa opening ceremony na dinaluhan din nina PSC Chairman Richard Bachmann and Executive Director Paulo Tatad.

Hataw din si Gian Santos, nakabase sa Rancho Santa Margarita sa California, matapos manguna sa boys 16-18 400-meter freestyle sa oras na 4:01.26, halos anim na segundo na mas mabilis sa 4:07.74 QTS sa naturang kategorya.

Tinalo niya ang promising Davaoeno na si Paolo Miguel Labanon ng Rasa Wave (4:07.79) at Anton Della ng La Union (4:17.70).

Ang isa pang Fil-Am na si Jaydison Dacuycuy at Fil-Mongolian Enkmend Enkmend ay parehong nabasag ang QTS (30.72) sa boys 14-15 50-m breast sa tyemping 30.39 at 30.60, ayon sa pagkakasunod.

"It feels so amazing because I sacrifice so much for this moment. I woke up at 2am everyday to practice before going to school, there's so much pressure on me but surprisingly I made it and I am so very happy with the results," sambit ni Coleman, isang athletic scholar sa government-run National Academy of Sports sa Capas, Tarlac.

"I was excited when I saw the name of Ate Kayla (Sanchez) in the starting list. I said to myself, wow I'm going to swim off with the Olympian medalist, but unfortunately her name was scratched at last minute, Sayang! panghihinayang ni Coleman sa nasayang na panahong makasabayan niya ang Fil-Canadian Olympian na bahagi ng heat 12 of 13 Finals sa naturang event.

Ang 23-anyos na si Sanchez, isang bronze medalist sa relay event swimming para sa Canada noong 2021 Tokyo Games bago kinatawan ang Pilipinas sa katatapos lang na Paris Olympics, ay 'no show' sa 50-m breast - isa sa tatlong event na nakatakdang niyang luhukan sa torneo.

Pagbilao residents, Quezon envi orgs, files complaint against Illegal Public Scoping of LNG Project at DENR-EMB

Quezon City, Philippines

– The Philippine Movement for Climate Justice (PMCJ), together with the residents of Brgy. Ibabang Polo, Pagbilao, Quezon, and representatives from other environment-concerned organizations, filed a complaint at the Department of Environment and Natural Resources (DENR)-Environmental Management Bureau (EMB), August 8, 2024, in its main office at Visayas Avenue, Quezon City. They are seeking the invalidation of a public scoping for the proposed Pagbilao 4 & 5 LNG-to-Power Project held last May 6, 2024, due to its illegality.

On April 29, 2024, PMCJ received an invitation to attend the said public scoping of the proposed Pagbilao 4 & 5 LNG-to-Power Project at the barangay's covered gym. During said public scoping, PMCJ and affected community stakeholders raised concerns regarding the legality of the proceedings. They were rebuffed by EMB and DENR-EMB Provincial Environment Management Office of Quezon, said PMCJ Luzon Coordinator Erwin Puhawan.

"It was an illegal public scoping that the EMB should have cancelled at the outset in view of the project proponent's, Therma Quezon Energy, outright violations of DENR Administrative Order (DAO) 2017-015," Complainant's Counsel Atty. Aaron Pedrosa said.

Atty. Pedrosa emphasized that the respondents are held liable for grave misconduct, inefficiency, and incompetence in the performance of duties, among others. He pointed out several violations of DAO 2017-15, which included unsubstantiated compliance with the prerequisites to the conduct of the public scoping.

"Hindi ito ang unang beses na di pinakinggan ng DENR ang aming mga hinaing at opinyon," Domingo Moreno, a resident of the said barangay said. [This

is not the first time that the DENR didn't heed our concerns and opinions.] Ka Domeng, also one of the complainants, narrated how they expressed their concerns regarding the Therma Energy power plant a few years ago but were blatantly neglected.

"Marami sa amin ang nagkakasakit [at inuubo], mga bata at matanda. Hindi naman kami natutugunan. Kapag lumapit sa baranggay, walang ibinibigay na gamot. Sinasabi nila ubos na," Ka Domeng said. [Many of us are sick. Our concerns are not being heard. When we go to our barangay (council), no medicine is given. They say it's already out.]

"Ang lumalalang problema ng climate change ay isang usaping moral sapagkat ang mga mahihirap na komunidad ang unang naapektuhan. Dapat igtalag ang mga hinihingi ng batas sa pagsasagawa ng public scoping sapagkat dito nakasalalay ang kredibilidad ng mga prosesong hinihingi ng batas. Napapanahong papanagutin ang mga dapat unang nagpapatupad at sumusunod sa batas sapagkat sa kanila umaasa ang mga tao para protektahan ang interes ng mga mamamayan at hindi ng iilan," Rev. Msgr. Emmanuel Ma. Villareal, Parish Priest of St Catherine of Alexandria at Pagbilao, said. [The worsening problem of climate change is a moral issue because poor communities are the first to be affected. The requirements of the law must be respected in the conduct of public scoping because the credibility of the processes required by the law depends on this. It is time to hold accountable those who should be the first to implement and follow the law because people rely on them to protect the interests of the citizens and not a few.]

Complainants urge DENR to uphold its regulations by invalidating the May public scoping for the Pagbilao LNG-to-Power Project.

The CENICU has 20 units for adult patients and 12 units for pediatric patients. Each of the units is furnished with a bed, monitor, and other tools needed for treatment of patients.

"Nakita niyo naman 'yung design. Dinesign iyon para bumaba ang intention rate, number one, pangalawa para mas maging komportable ang mga patients (You've seen the design. They are designed to decrease the intention rate, number one, second, for patients to be comfortable)," Legaspi told reporters on the sidelines of the launch.

"For charity patients, no balance billing applies even if you reach PHP1 million as long as you're indigent."

Patients who spend at least PHP40,000 for PET-CT scan tests can now receive similar services for free or at a lower price at the UP-PGH.

The hospital plans to offer such tests or services at the lowest rate in the country with its new equipment which costs around PHP150 million.

"Sa gobyerno ito palang ang pangalawang facility, NKTi [National Kidney and Transplant Institute] 'yung isa, pero sa gobyerno ito 'yung unang una binili ng gobyerno (In the government, this is the second facility, the other one is NKTi, but this is the first government-procured). Target is one hour per patient for the procedure so in a regular office hours eight patients but I'm sure we will extend," Legaspi said.

The equipment allows faster procedure per patient and provides higher resolution imaging for more accurate or diagnosis of cancer.

It could also be used in diagnosing other disease entities of neurology cardiology, infection, and inflammation.

As for enough nurses to man the new facilities, Legaspi disclosed that the hospital also experiences lack of nurses "but for some reasons, it receives many applicants for the vacancies".

"We have made our case with the DBM [Department of Budget and Management] based on the plantilla positions allotted for government hospitals like PGH with 1,500 beds, bibigyan pa kame ng (we will be given) additional 157 nurses. They have agreed to give it after we agreed to submit the necessary requirements," he said. (PNA)

MANILA – The Department of Human Settlements and Urban Development (DHSUD) has launched more housing projects under President Ferdinand R. Marcos Jr.'s Pambansang Pabahay para sa Pilipino (4PH) Program in Mindanao over the weekend. DHSUD Secretary Jose Rizalino Acuzar and other key housing officials spent the weekend in Zamboanga City and Surigao del Norte to break ground for two 4PH projects and inspect other ongoing ones. "Ang utos po ng mahal na Pangulong Bongbong Marcos Jr. ay tutukan ang implementasyon ng 4PH para sa mga kababayan nating mahihirap at patuloy na nangangarap na magkaroon ng sariling tahanan (The directive of our beloved President Bongbong Marcos Jr. is to monitor the implementation of 4PH for our poor countrymen and others who dream of having their own houses)," Acuzar said in a news release. "Dito sa Mindanao, magaganda po ang mga naka-plano nating (Here in Mindanao, we have beautiful) township developments," he added. On Saturday, the housing officials inspected a proposed 4PH project site for Dreams Residences, then proceeded to sign the memorandum of agreement for the ongoing Vinta Residencia in Barangay Salaan, both in Zamboanga City. House Majority Leader Zamboanga 2nd District Rep. Mannix Dalipe and Zamboanga City Mayor John Dalipe welcomed the DHSUD team also composed of Undersecretaries Garry De Guzman and Avelino Tolentino III, Assistant Secretary Melissa Aradanas, National Housing Authority (NHA) General Manager Joeben Tai and DHSUD Regional Officer-in-charge Director Roland Eta. They then launched the Sikat High Park Residencia in Barangay Layuhan being implemented by the NHA. In Zamboanga City, DHSUD is eyeing about 25,000 housing units under

4PH. The DHSUD team also checked the NHA project for Badjaos in Barangay Kasanyangan, Zamboanga City on Friday. "Ang mga proyektong ito ay patunay na walang maiiwan sa 4PH ni Pangulong Bongbong Marcos Jr. Itutuloy po natin ang pangarap ng kanyang ama na tulungan ang lahat ng Pilipino na magkaroon ng sariling tahanan na ligtas at disente (These projects are proof that nothing will be left behind in President Bongbong Marcos Jr.'s 4PH. Let's continue his father's dream of helping all Filipinos have their own homes that are safe and decent)," Acuzar said. (PR)

CA affirms conviction of Maute member for explosive device possession

MANILA – The Court of Appeals (CA) has affirmed the lower court's reclusion perpetua sentence on a Maute terrorist group member for unlawful possession of an explosive device. In a news release Monday, the Department of Justice (DOJ) said the CA affirmed in toto the decision of the Taguig City Regional Trial Court Branch 266 which found Nasifa Pundug guilty beyond reasonable doubt of violation of Presidential Decree 1866, as amended by Republic Act 9516 or the law against the illegal possession of firearms and explosive devices. Pundug was arrested with seven others at an Army checkpoint in Barangay Butig, Lumbayanague, Lanao del Sur on Aug. 22, 2016. Residential developer invests PHP350-M in Nasugbu

MANILA – Pocket Communities is launching a new housing development, The Wave Residences, in Nasugbu, Batangas, with a PHP350 million investment. In a statement Tuesday, the real estate developer said the project held its groundbreaking on Aug. 2 and construction will be completed within three years. Located in Barangay 11, the 2.6-hectare residential development will have 122 housing units priced from PHP6 million to PHP9 million. Pocket Communities president and chief executive officer Christian Mulingbayan said they aim to address the growing need for quality but affordable homes with the country's expanding middle class. "This project is more than just a residential development; it's about creating a vibrant community that enriches lives," Mulingbayan added.

that it was merely planted considering it did not have a serial number or any marking. She supported her alibi by using the "chain of custody rule" or a protocol to check the veracity of evidence obtained in illegal drug cases. The CA ruled that the contention of the accused was bereft of merit and self-serving. "In the case at hand, the chain of custody rule does not apply to an undetonated grenade (an object made unique) for it is not amorphous and its form is relatively resistant to change. A witness of the prosecution need only to identify the hand grenade, a structural object, based on personal knowledge that the same article is what it purports to be," part of the decision read. "Denial and alibi cannot prevail over the positive identification of assailants by the witnesses unless substantiated by clear and convincing proof," the CA said.

For his part, Nasugbu Mayor Antonio Barcelon is optimistic about the project's potential to create jobs and boost the local economy. "This development shows Nasugbu's growing appeal as a prime investment destination," he said. Aside from Nasugbu, the company also has projects in Balayan and Tuy in Batangas. (PNA)

BSP orders financial institutions to accept digital national ID

MANILA – The Bangko Sentral ng Pilipinas (BSP) directed BSP-Supervised Financial Institutions (BSFIs) to accept all formats of the national identification (ID), including the digital format. BSP Memorandum 2024-026, dated Aug. 9 and posted on the central bank's website on Monday, mandates BSFIs to accept all formats of the national ID as an official government-issued identification document and a valid and primary proof of identity, subject to authentication. Launched on June 10, the digital national ID is the official digital version that can be easily accessible through computers or smartphones with an internet connection. It contains the owner's national ID card number, digital ID number and basic demographic information, such as the front-facing photograph, full name, date of birth, present address, gender, blood type, marital status, and the Quick Response (QR) code. Aside from accepting all formats of the national ID, all BSFIs are required to use the national ID check (<https://everify.gov.ph/check>) to verify the authenticity. "BSFIs are also encouraged to integrate with the National ID System through an application to the National ID Authentication Services," the BSP said. The National ID Check website allows users to verify and authenticate the Digital National ID by scanning the QR code. "The PSA (Philippine Statistics Authority) advised that this website is recommended for low-risk transactions. To ensure higher assurance of verification, RPs (relying parties) are strongly encouraged to onboard with the PSA through an application with the National ID Authentication Services via the National ID eVerify," the BSP said. CA junks amparo, habeas data suits vs. NTF-ELCAC

MANILA – A ruling by the Court of Appeals (CA) has turned down suits for protection filed by two activists against government security forces, the National Security Council (NSC) said Monday. In a 55-page decision dated August 2 written by Associate Justice Lorenza R. Bordios, the former Special Eight Division of the appellate court dismissed the petitions for Writ of Amparo and Writ for Habeas Data filed by environmental activists Jhed Tamano and Jonila Castro for lack of substantial evidence. The petitions were filed against the National Task Force to End Local Communist Armed Conflict (NTF-ELCAC), the Philippine Army, and the

Aside from accepting all formats of the national ID, all BSFIs are required to use the national ID check (<https://everify.gov.ph/check>) to verify the authenticity. Philippine National Police (PNP), and its officials, including NSC Assistant Director Jonathan Malaya. "All told, this Court finds that the privilege of the writs of amparo and habeas data cannot be granted to petitioners for their failure to establish their claims by substantial evidence," the court said. The petition for a writ of amparo is a remedy available to any person whose right to life, liberty, and security is violated or threatened with violation by an unlawful act or omission of a public official or employee, or of a private individual or entity. The writ shall cover ex-legal killings and enforced disappearances or threats. The writ of habeas data is a constitutional right that provides citizens the right to access personal information collected by the government or a private entity and to challenge or correct the data. In dismissing the suits, the CA said the "petitioners failed to establish the existence of an imminent or continuing threat" and likewise "failed to specify the information or data they seek from respondents and the source thereof." "This decision is an unequivocal vindication for the NTF-ELCAC and its officials and clearly exposes this case as a mere harassment and baseless case against the task force," National Security Adviser Eduardo M. Año said in a statement. In September 2023, the NTF-ELCAC claimed that Tamano and Castro surrendered to the 701B in Doña Remedios Trinidad, Bulacan. However, during a press briefing by the task force on Sept. 19, the two activists alleged that they were abducted by unidentified individuals on September 2 and were allegedly delivered to the Army camp. They filed the petitions with the Supreme Court on September 28, and in October, the SC directed the Court of Appeals to conduct a summary hearing and decide on the petitions. (PNA)

TAYO AY PULIS, IGALANG ANG ATING UNIPORME- PNP CHIEF

GANITO ang binitiwang mensahe ni Philippine National Police chief, Gen. Rommel Francisco Marbil nitong nakaraang flag-raising rites sa Camp Crame sa Quezon City.

Ipinaliwanag ni Marbil ang kahalagahan ng dignidad ng kanilang uniporme para sa lahat ng pulis.

May kinalaman ito sa nakitang tagpo ng PNP chief sa selebrasyon ng 123rd Police Service Anniversary kamakailan.

Ilang pulis, partikular ang nasa mababang ranggo, ang pinapayungan ang mga panauhin sa pagtitipon.

Para sa hepe ng pambansang pulisya ay mali ang ganoon dahil ang pagpapayong sa mga bisita ay hindi kasama sa trabaho ng pulis.

Sa halip aniya ay kailangang irespeto ng police uniform upang maipakita ng bawat pulis ang dignidad.

Ipinaalala ni Marbil na bilang isang pulis ay hindi nangangahulugan na magsisilbing bodyguard, driver, o alalay.

Dagdag pa ni Marbil na dapat ay ipamalas ng lahat ng PNP personnel sa publiko na ang bawat pulis ay naiiba na dahil bukod sa maaasahan ay mapapagkatiwalaan pa. **RUBEN LACSA**

Hanggang saan ang buhay mo?

INILUWAL tayo mula sa sinapupunan ng ating ina at magiging tao sa mundong ibabaw. Sa pilosopong salita ay magiging o naging tao tayo dahil sa ating nanay at tatay. Pagluwal ni nanay mula sa kanyang sinapupunan ay katanungan kung hanggang saan ang ating buhay. Ibig sabihin ay hanggang kelan tayo mabubuhay subalit alam naman natin na mayroong kapag kapanganak o hindi ba nailalabas sa tiyan ng ina ay nababawian na ng buhay. Mapalad ang makikipagsapalaran at makikiagos pa sa galaw ng mundong ibabaw. Kahit pa sa mahirap o mayaman na uri ng pamumuhay basta nasa mundong ibabaw at buhay. Mula sa pagsibol sa mundo ay mayroong saglit at napakabilis lamang na mananatiling buhay. Ibig sabihin ay may sanggol, bata, murang edad o katatamtamang gulang ang nababawian na ng buhay. Sabi nga ay hiram lang ang buhay at nagsilbing instrumento lamang ang ina at ama o ang magulang sa pagluwaw sa mundo. Tanong na kung kanino ba

galing ang buhay o sino ba talaga ang nagbigay ng buhay? Simpleng kasagutan na nagmula o bigay ng Panginoong Diyos na tanging ang pagbawi ay mula rin sa Kanya. Sabi nga ay parang kapag birthday na mayroong cake at candle na hinihinapan kasabay ng wish. Pero sabi nga rin na kapag iniluwal ng ina at lumabas sa mundong ibabaw ay may kaakibat na rin na kandila pero walang cake. Kandila na ang blow o ang pag-hip ay nasa kamay ng Diyos, na kumbaga kapag hinipan na Niya ay kadiliman o kamatayan na. Mapalad ang binibigyan ng Diyos ng mahabang kandila subalit lahat tayo ay masuwerte maliit man o malaki iyan dahil nasilayan at nabuhay sa mundo sa pamamagitan ng hiram na buhay. Hiram kaya nangangahulugan na babawiin rin na dapat ay malinis sa pagbawi. Malinis tayong ipinahiram kaya dapat ay malinis tayong babawiin. Iyan ang tanong, sa ating kamatayan ay malinis ba rin tayo?
