DTI CALABARZON BOOSTS MSME'S DIGITALIZATION PROGRAM

CALAMBA CITY, Laguna (PIA) – The Department of Trade and Industry (DTI) in Calabarzon continues to enhance the competitiveness of micro, small, and medium enterprises (MSMEs) in both local and global markets by providing them access to business digital solutions.

In a recent episode of the Philippine Information Agency Calabarzon's Sulong Calabarzon program, DTI Calabarzon Regional Director Marissa Argente emphasized the MSMEs digitalization program, which addresses the unique needs and challenges faced by local businesses. The program provides targeted support through training, tools, and resources to help these businesses transition to digital platforms.

"We have specific training on how our entrepreneurs can be more digitalized so that they can have access to local and global markets. We teach them how to use digital tools effectively to expand their businesses through credible online platforms," Argente said. According to Argente, the digitalization program, aligned with the government's vision

of fostering innovation and creating an inclusive economy, is a significant step toward achieving a digitally-enabled economy where businesses of all sizes can thrive in a highly competitive and increasingly digital global market.

Among the digital solutions provided to MSMEs is the QR payment system, which enables businesses to accept payments from various e-wallets and banks.

"We also want a QR code system where all the payments are transacted there, so we are partnering with the Bangko Sentral ng Pilipinas (BSP) so that we can have a QR code system in every market in the region."

She emphasized that the QR code system would empower small businesses in remote areas to participate in the digital economy, bridging gaps in access to formal banking services.

The director added: "It is necessary for us to use the technology that is our way because times are changing. We've taught them how to use online payment systems to offer more convenient options to consumers." **(AM/PIA-4A)**

Calabarzon cops intensify rescue, relief as 9K families evacuate

CALAMBA CITY, Laguna – The Police Regional Office in Calabarzon (PRO 4A) has intensified disaster response efforts across the region as Severe Tropical Storm Kristine (Trami) battered numerous towns and cities.

Brig. Gen. Paul Kenneth Lucas, PRO4A chief, said in a statement Thursday that a total of 1,209 police personnel have been deployed to critical areas for evacuation, preventive patrolling in vacated zones, route security, traffic management, search and rescue missions, and relief operations. Additionally, 443 personnel from the Reactionary Standby

Support Force remain on high alert, ready to provide reinforcements as needed. Lucas also reported the evacuation of 9,097 families, comprising 30,932 individuals, to 402 evacuation centers throughout the region in collaboration with the respective local government units (LGUs). In addition, he said their Sub-Committee on Natural Disaster was activated, led by the chief of the Regional Community Affairs and Development Division. This committee oversees search and rescue operations, evacuation efforts, medical support, and clearing major roads

NIA-Calabarzon boosts farmers' productivity with modern technology

CALAMBA CITY, Laguna – The National Irrigation Administration (NIA) Calabarzon announced on Tuesday its initiative to enhance farmers' productivity through the implementation of modern technology and equipment in the region's irrigation management offices (IMOs).

Engineer Roberto Dela Cruz, regional manager of NIA IV-A (Calabarzon), highlighted the transformative potential of solar technology, which can now deliver water to elevations ranging from 0 to 8 percent, a significant increase from the previous 0 to 3 percent reliant on gravity-fed systems. This advancement is poised to revolutionize irrigation practices for rice farmers and those cultivating high-value crops in elevated terrains.

During the Kapihan sa Bagong Pilipinas forum held at the NIA Conference Hall in Pila town, Dela Cruz underscored the importance of harnessing solar energy to enhance agricultural productivity.

He said a solar-powered pump costing between PHP5 million to PHP7 million is capable of servicing 10 to 15 hectares of land, and will

and highways to ensure the smooth delivery of emergency services and relief goods to affected communities.

"We are advising our countrymen to be careful and follow the notices of our local governments. During this time, cooperation and discipline are important to ensure everyone's safety," Lucas stressed. "Your police are standing by to provide help and support. Please expect that PRO-Calabarzon will be with you in facing this test," he added.

Meanwhile, Lucas informed that a Search and Rescue (SAR) Team, comprising 45 police personnel, has

be maintained by NIA personnel starting in 2025. The NIA has allocated PHP700 million for the establishment of solar-powered pumps across the Laguna-Rizal, Cavite-Batangas, and Quezon irrigation management offices, aiming to empower farmers with sustainable resources.

"The introduction of solar-powered pumps will significantly boost our farmers' productivity, as these will be provided to them at no cost," Dela Cruz said, assuring that even those in elevated regions can successfully cultivate high-value crops.

In addition to solar technology, NIA's modernization program includes the introduction of a new fleet of equipment to replace outdated machinery. Since 2023, long-arm excavators and dump trucks have been deployed to the three IMOs, enhancing their capability to respond swiftly during adverse weather conditions.

A second fleet of similar equipment arrived this year, and plans are underway to provide additional transport vehicles in 2025 to support ongoing training and capacity development for irrigators' associations (IAs).

"NIA is committed to improving the lives of our farmers and their families by providing access to the latest technologies and equipment that were previously unavailable," Dela Cruz added, reinforcing the agency's dedication to agricultural advancement in the region. **(PNA)**

The team is equipped with a bus, two trucks, one private vehicle, two fiber boats, and two rubber boats, to ensure a swift and effective deployment of manpower and resources to support those in need. **(PNA)**

DHSUD, LGUs collaborate to provide speedy shelter assistance

MANILA – The Department of Human Settlements and Urban Development (DHSUD) and local government units (LGUs) on Wednesday started to facilitate quick provision of assistance to affected families under the Integrated Disaster Shelter Assistance Program (IDSAP).

"Ngayon pa lamang ay dapat naka-on board na tayo sa LGUs para mabilis ang validation kung ilan at sino ang agarang tutulongan dahil nasiraan ng tahanan (We must be on-board with the LGUs for fast validation as to when and who needs immediate help because of house damage)," DHSUD Secretary Rizalino Acuzar said in a news release.

"Dapat agaran ang pagbibigay natin ng assistance dahil ngayon na kailangan ito (We must give immediate assistance because it is needed now)." A memorandum was issued enjoining regional offices to "adopt an anticipatory

and proactive approach in actively coordinating with the LGUs within their respective jurisdictions."

It stated regional offices must ensure that information about the DHSUD's financial assistance under the IDSAP is relayed, including the distribution of complete and accurate forms to facilitate the processing of requests.

The IDSAP provides PHP30,000 cash assistance for those with totally damaged houses due to man-made or natural calamities, and PHP10,000 for the partially damaged.

On Tuesday, Acuzar ordered the activation of shelter clusters in Ilocos Region, Cagayan Valley, Central Luzon, Calabarzon, Mimaropa, Bicol Region, Western Visayas, Central Visayas, Eastern Visayas, the National Capital Region, and Cordillera Administrative Region to ensure preparedness. **(PNA)**

GSIS opens emergency loans for 'Kristine'-hit areas

MANILA – Members and pensioners of the Government Service Insurance System (GSIS) in areas declared under a state of calamity due to Severe Tropical Storm Kristine (international name Trami) may now apply for emergency loans. In a statement on Friday, GSIS said the program, which is already open in Albay and Naga City, would also be activated in areas declared under a state of calamity.

Members without an existing emergency loan can borrow up to PHP20,000, while those with existing balances can apply for up to PHP40,000. The loan has an interest rate of 6 percent per annum and is payable in three years.

To qualify for the emergency loan, members must be actively employed, not on leave without pay, no pending administrative or legal cases, with payment of at least six months' premiums, and a net take-home pay of at least PHP5,000.

Pensioners must also have

a remaining net pension of at least 25 percent of their pension after loan amortization to qualify.

GSIS President and General Manager Wick Veloso urged members and pensioners to use the GSIS Touch in applying for loans for safe and quick transactions.

Veloso said the GSIS Touch offers a secure, seamless, fast, and more efficient way to apply for loans, keep track of premium remittances, loan and insurance payments, access membership, and pension records, and enables them to manage their accounts through their mobile phones.

GSIS said if any member or pensioner requires assistance in using the Touch mobile app, its customer service is available 24/7 to help.

Members may call the GSIS Contact Center at 8847-4747 (Metro Manila); 1-800-8-847-4747 (Globe and TM subscribers); or 1-800-10-847-4747 (Smart, Sun, and TNT subscribers). **(PNA)**

PMCJ to World Bank: Stop Profiting from the Climate Crisis, Provide Reparations for the Harm You Have Caused!

Marking the seventh year of the Philippine Movement for Climate Justice (PMCJ)'s complaint against World Bank (WB)'s and its private sector arm, International Finance Corporation (IFC), the WB's deadly carbon footprint on the harm it has caused continues as communities suffer the coal impacts. The country is being ravaged by climate impacts—the most recent is Typhoon Kristine that killed more than 20, and affected at least 2 million people in 12 regions.. The WB faces criminal liability as justice has not been served for the past seven years.

In light of this year's Global Day of Action for Climate Justice, PMCJ, along with other climate justice groups, renews its call for the WB to stop funding and profiting from the climate crisis and end their support for dirty fossil fuel projects, putting to task all subprojects to immediately formulate a managed phaseout plan of all fossil fuels. PMCJ demands accountability and reparation for all the people and communities affected by these projects. Stop The Harm, Deliver The Remedies

On behalf of the people of 19 communities impacted by coal, PMCJ, Inclusive Development International, and Bank Information Center Europe filed a complaint against the IFC in October 2017 for the financial institution's involvement in the country's alarming expansion of coal-fired power plants.

The complaint singled-out WB-IFC expanded coal projects in the Philippines by lending hundreds of millions of dollars to a financial intermediary, the Rizal Commercial Banking Corporation (RCBC), which is one of the leading domestic coal financiers in the country. The WB violated their own rules regarding the environmental and social requirements by allowing the construction of 19 coal plants.

Coal-fired power plants contribute to severe air, land, and water pollution; leading to contaminated crops, fruit-bearing trees, marine ecosystems; health impacts, such as skin conditions and cardiovascular and respiratory diseases. Communities suffer deaths in the families and many are uprooted with little to no compensation and relocation plans. The community resistance against these harmful projects are met with harassment and death. The Philippines continues to be one of the deadliest countries for climate and environmental defenders. The Compliance Advisor Ombudsman (CAO), the independent watchdog of the WB Group, declared in October 2019 that it would investigate IFC in response to the climate complaint, potentially impacting assets in the Philippines totaling at least USD 254 million (PHP 13 billion).

Masinloc Power Plant, GN Power Dinginin, South Luzon Thermal Energy Corporation, San Buenaventura Coal-

Fired Power Plant, Panay Power Station, Southern Mindanao Coal-Fired Power Plant, Lanao Kauswagan Coal-Fired Power Plant, and the coal-fired power plants in Toledo, Atimonan, Limay, and Malita, were among the 11 out of the 19 projects that were found eligible based on CAO standards. As the climate crisis escalates, communities carry on with the fight against fossil fuels and push for clean renewables. PMCJ urges a full halt to both indirect and direct financing of fossil fuel projects and calls for a complete exit from coal. The Intergovernmental Panel on Climate Change in its AR6 calls for the peak of fossil fuel use by 2025.

Bank on Renewables Last September, a crucial milestone was attained as the province of Albay in the Philippines embarked on a 1250 megawatt renewable energy project valued at Php 84 billion (USD1.5 billion), demonstrating that the province's renewable energy future is no longer a distant goal but a reality. The milestone capped the two-day Renewable Energy and Investment Summit, a collaboration between the provincial government and PMCJ.

In order to meet the region's increasing energy needs and establish Albay as a pioneer of the Philippines' just energy transition, the project and financial pledges cover the development of 222 MW of OffShore Wind, 1,028 MW of Solar and 0.5 MW Hydropower. More local government

units (LGUs) are declaring a climate emergency, crafting executive orders and ordinances to push their local jurisdictions to commit to 100 percent renewable energy. For a rapid, just energy transition, the LGUs have a significant role to play for the country's climate ambition; and it is about time that climate finance and technology are driven towards these demands. For the major role it has played in the climate crisis, the World Bank must fulfill reparations for the current and historical sins being committed. By expanding the development of fossil fuel projects, despite the science raising the global alarm of the fast-closing window towards climate catastrophe, World Bank's profiteering against the planet and the people must have to be stopped.

In this seventh year since the filing of the Philippine communities' complaint against the World Bank's expansion of coal in the country, PMCJ demands the World Bank to stop the harm and deliver the remedies due to hundreds of thousands of people suffering from its investment! For its failure to provide remedies since the filing of the climate action suit, the World Bank has no purpose and reason to exist.

In defense of our common future for the planet and all the people, the World Bank must stop meddling in the climate and in the lives of the people. #StopTheHarm and #DeliverTheRemedies now!

Ginebra at Tropang Giga maghaharap sa PBA Governors cup Finals

Maghaharap para sa finals match ang Ginebra at TNT matapos biguin ng Gin Kings ang San Miguel Beermen sa 102-99 semifinal Game 6 win sa Smart Araneta Coliseum sa Quezon City. Sapat na ang isang dagger three mula kay Justin Brownlee nang makaiwas ang Gin Kings sa mga puntirya mula sa Beermen sa huli. Umiskor si Brownlee ng tres sa natitirang 1:47 para sa 102-98 , na halos nagselyado sa deal para sa Ginebra habang nahihirapan ang SMB sa pag usad.

Nagkaroon ng pagkakataon si June Mar Fajardo na makalpit ang Beermen, ngunit nakaagawa lang siya ng kunti mula sa free throw line may 1:34 na lang. Nagkaroon ng pagkakataon si Scottie Thompson na maka pag tirada

upang pangungunahan sana ang Gin Kings, ngunit sumablay siya ng triple ng umatake si CJ Perez sa kanyang layup na naging daan tungo sa basket.

Makaraang harangin naman ni June Mar Fajardo ang susunod na pagtatangka ni Thompson, na nagbukas ng pagkakataon para sa Beermen na manalo, ngunit hindi nagtagumpay si EJ Anosike sa kanyang four-point shot habang ang three-pointer ni Jericho Cruz na maaaring maghatid sa Game 6 sa overtime ay naputol din habang tumatakbo ang oras. sa kanilang kampanya sa season-opening conference.

Pinangunahan ni Maverick Ahanmisi ang Ginebra na may 25 puntos, dalawang rebound, isang assist, at isang steal, habang nagdagdag si Brownlee ng 21 puntos, pitong rebound, pitong assist, tatlong steals, at dalawang block.

Nag-ambag si Japeth Aguilar ng 20 puntos, anim na rebounds, at isang block. Nanguna si Anosike sa SMB na may 30 puntos, siyam na rebound, limang assist, isang steal, at isang block, habang nagdagdag si Fajardo ng 22 puntos, 15 rebounds, apat na assist, isang block, at isang steal. Samantala walang Halloween break Magsisimula ang kampeonato ng Ginebra-TNT, isang rematch ng 2023 edition na napanalunan ng huli, sa susunod na Linggo sa Ynares Center sa Antipolo.

Ang susunod na tatlong laro ay lalaruin sa Smart Araneta Coliseum, kabilang ang Game 3 na naka-iskedyul sa Nob. 1 na minarkahan ng isang pambihirang pagkakataon na magdaraos ang PBA ng laro sa All Saints' Day.

Kadalasan, hindi nagtatakda ng laro o doubleheader ang liga mula Oktubre 31 hanggang Nob. 2 para magamit ng mga manlalaro nito ang Halloween break nito para bisitahin ang kanilang mga mahal sa buhay na namayapa na. Gayunpaman, hindi ito mangyayari sa pagkakataong ito dahil tintingnan ng PBA na bigyan ang Gilas Pilipinas, na nagkataon na tinuturuan ng mentor ng Gin Kings na si Tim Cone, ng mas mahabang panahon para maghanda para sa window ngayong Nobyembre ng FIBA Asia Cup Qualifiers sa SM Mall of Asia Arena sa Pasay.

Zambales residents, climate-concerned orgs, file complaint at DENR-EMB against SMGP's coal plant expansion in Masinloc

Quezon City, Philippines – Groups from Zambales, together with Philippine Movement for Climate Justice (PMCJ), filed a complaint at the Department of Environment and Natural Resources (DENR)-Environmental Management Bureau (EMB), October 18, 2024, in its main office at Visayas Avenue. This is to oppose the Masinloc Power Plant Expansion Project (Unit 4 increase in capacity, and Unit 5 expansion) of Masinloc Power Partners Co., Ltd., a subsidiary of San Miguel Corp. Global Power (SGMP). Last September, PMCJ and communities in Masinloc slammed Zambales Governor Hermogenes Ebdane, Jr. for his endorsement of the said SMGP expansion projects, with 350 MW in capacity each. Residents and local groups have been laying out the necessary arguments, documents, and legalities, and keeping the decades-long fight against SMGP's coal plants as it continues to disrupt their livelihood and endangers their health. "Kung sa ngayon pa lang ay nanganganib na ang bansa sa maraming sakuna, ang dagdag pang planta na lalong magpapainit ng klima ay hindi lang kawalan ng katinuan, ito ay pagpapatiwakal. [...] Masahol pa, ang mga plantang ito na sumisira sa kalikasan ay nakatayo pa mismo sa Oyon Bay, na katumbas ay buhay ng mga mangingisda, kaya ito ay isang deklaradong Protected Area," said Dr. Benito Molino of Zambales Lingap Kalikasan (ZALIKA). Environmental organizations have been amplifying their concerns since 2018 as large tracts of coral and marine life in Masinloc Bay were destroyed during construction of the Masinloc expansion. Since the coal-fired power plant's unapproved large reclamation operations in Masinloc town breached multiple requirements of the 1992 National Integrated Protected Areas System Act, groups said that it must be promptly terminated. Coal has proved to be

an unreliable source of energy. The ERC presented a report in June 2021 at the House Committee on Energy hearing, naming the power plant units that had issued successive red alarms in May 2021, resulting in cyclic brownouts in Metro Manila and other areas of Luzon. The ERC named the main power companies responsible for the declining supply as AboitizPower, San Miguel Corporation, Team Energy, and DMCI Holdings in their study. "The Masinloc coal plant expansion project exposes the [Philippine] Government's persistent deadly addiction to coal despite declarations and commitment to shift to renewable energy according to its own Energy Plan and Nationally Determined Contribution (NDC). The 2020 coal moratorium is clearly a farce. Instead of moving forward, the Marcos Jr. Government is marching us back into the past condemning and locking us into decades of dirty, deadly and costly coal energy. We continue to challenge the officialdom's unrelenting pro-coal position as lives and livelihoods are at stake evidenced by the harms experienced by affected communities in Masinloc. Why is the Government so hell-bent in pursuing new coal projects when the country has more than 800,000 MW untapped renewable energy potential?" said Atty. Aaron Pedrosa, Secretary-General of Sanlakas. Zambaleños are one with this year's week of action to demand the World Bank (WB) to end its fossil fuel financing. This is also to mark the 7th year of the landmark complaint filed by PMCJ to the WB's private sector arm, the International Finance Corporation (IFC). According to the complaint, the IFC provided financial support to Rizal Commercial Banking Corporation in order to fund coal projects that included the expansion of the Masinloc Power Partners in 2015. 7 years later, the expansion of the Masinloc coal plant continued and the communities faced the worst situation that it was.

SC halts Comelec reso on denial of dismissed officials' candidacies

MANILA – The Supreme Court on Tuesday issued a temporary restraining order against the Commission on Elections (Comelec) from implementing a resolution denying the certificates of candidacy (COC) of candidates dismissed by the Office of the Ombudsman, including those whose cases are on appeal. In a press briefing, SC spokesperson Camille Ting said the tribunal consolidated the separate petitions filed by former Albay governor Noel Rosal, Mandaue Mayor Jonas Cortes and Cebu City Mayor Michael Rama who were affected by the resolution. The TRO suspends the poll body from implementing Resolution No. 11044-A dated Sept. 24, which immediately denied the COC of candidates dismissed by the Ombudsman even if an appeal is pending.

"The Court ordered that the cases be consolidated. It also issued a temporary restraining order against the Comelec, which was ordered to comment on the petitions within a non-extendible period of 10 days from receipt of notice," Ting said. Rosal was perpetually disqualified due to an administrative case; Rama was dismissed for nepotism charges; while Cortes was dismissed for grave misconduct. In separate cases, Ting said the SC affirmed the disqualification of Rosal as Albay governor, Geraldine Rosal as mayor of Legazpi City, and Jose Alfonso Barizo as councilor of Legazpi City. Their disqualifications are for violating the Omnibus Election Code in relation with the disbursement and release of government funds during the prohibited period before a regular election. (PNA)

BSP's coin deposit machines collect over 1 billion

MANILA, (PIA) — Good news! The Bangko Sentral ng Pilipinas (BSP) has collected over 1 billion pesos from the coin deposit machines (CoDMs). According to BSP, as of October 11, a total of PHP1,008,889,490.24 coins have been collected since its launch in June 2023. It has also accumulated more than 260,000,000 pieces of coins and facilitated more than 240,000 transactions. Currently, the BSP has 25 coin machines located in the Greater Manila Area. The BSP will expand the project by installing 25 more CoDMs nationwide in 2025. This will make it more convenient for Filipinos to deposit their idle coins, helping recirculate them back into the economy while promoting cashless transactions. By increasing accessibility, the BSP aims to reach more communities and ensure that the benefits of the CoDM initiative are widely felt across all regions. The BSP has so far installed CoDMs at the following locations: Robinsons Place Metro East, Pasig City; Robinsons Place Novaliches, Quezon City

(QC); Robinsons Place Antipolo, Rizal; Robinsons Place Magnolia, QC; Robinsons Place Ermita, Manila; Robinsons Galleria, Ortigas; Festival Mall, Muntinlupa City; SM Megamall, Mandaluyong City; SM City Grand Central, Caloocan; SM City Marilao, Bulacan; SM City Taytay, Rizal; SM Hypermarket FTI, Taguig City; SM Southmall, Las Piñas City; SM City Sucat, Parañaque; SM City Calamba; SM City Marikina; SM City San Mateo, Rizal; SM City Valenzuela; SM Mall of Asia, Pasay City; SM City North EDSA, QC; SM City Fairview, QC; SM City San Lazaro, Manila; SM City Bicutan, Parañaque; and SM City Bacoor, Cavite. Through the CoDM, people can place legal tender coins in the machines, with the total value credited to e-wallet accounts in GCash or Maya, GoTyme bank accounts, or converted into shopping vouchers. In using the machines, the BSP reminds customers that coins must not be taped or bundled, must not come with other objects like buttons, magnets, nails, tokens, screws, or washers, and should be

Over 100,000 Filipinos benefit from the P29 Bagong Bayaning Magsasaka rice program

QUEZON CITY, (PIA) – More than 100,000 Filipinos were able to avail of the P29 per kilo rice of the National Irrigation Administration (NIA) under the Bagong Bayaning Magsasaka (BBM) Program. The BBM rice program caters to vulnerable sectors including senior citizens, persons with disabilities (PWDs), solo parents, and members of the Pantawid Pamilyang Pilipino Program (4Ps) to improve their access to affordable quality rice. The said initiative is made possible by the implementation of the Farming Support Services Program or contract farming which allows the NIA to extend financial and farming support to rice farmers, particularly those who are members of the Irrigators' Association. Under the Farming Support Services Program, the NIA provides farm inputs worth P50,000 per hectare including seeds, fertilizers, and pesticides. It also extends financial assistance for land preparation and harvesting. A total of five (5) metric tons of fresh palay produce are directly purchased by the NIA through the contract farming for the P29 per kilo BBM rice. "[The] Farming Support Services Program empowers Filipino farmers to grow more, earn more, and sustain their livelihoods," said the NIA, during the 22nd Kapihan sa Bagong Pilipinas (KBP) media forum on Tuesday, October 22.

To further achieve rice sufficiency, NIA Administrator Engr. Eduardo "Eddie" G. Guillen emphasized that increasing the number of irrigation facilities alone cannot strengthen the productivity of farmers. "May ginagawa po tayong gently placed in the coin slot in handfals. Furthermore, the BSP advises customers to ensure their e-wallet accounts are valid, active, and within the prescribed transaction limits. (JEG/PIA-NCR)

ngayon na paraan para 'yung kakulangan natin sa bigas ay ma-solve natin sa lalong madaling panahon. Ito po 'yung pag-increase natin ng tinatawag na cropping intensity," said Guillen. (We are implementing measures to solve the insufficient rice production as early as possible. This is the increase in what we call cropping intensity.) Cropping intensity refers to the number of times in which a farmer can grow crops in the same agricultural area within a year. The NIA proposed a shift in cropping schedule to increase the cropping intensity of agricultural lands. This includes the change in cropping calendar to October to February instead of April to August to avoid the peak of the typhoon season in the country. NIA Administrator Guillen is actively conducting a consultation dialogue with the leaders and stakeholders of the Irrigators' Association for the implementation of the proposed cropping schedule. Meanwhile, the NIA requested an amount of P6 billion for the contract farming program in 2025. This is significantly higher than the current P3.4 billion allocation for the said program. The increase in funding will enable NIA to expand the target area to be planted under the contract farming from 40,000 hectares to 120,000 hectares. This is expected to generate 600,000 metric tons of palay or 300,000 metric tons of rice. 300,000 metric tons of palay will be sold to the National Food Authority (NFA) while the 75,000 metric tons of rice will be sold at Kadiwa centers. Another 75,000 metric tons of rice will also be made available for the Rice 4 All Program Markets of the Department of Agriculture (DA). This distribution is expected to generate a total income of P12.450 billion. (JMP/PIA-NCR)

SC affirms life term for Korean pastor for trafficking minors

MANILA – The Supreme Court (SC) has affirmed the life imprisonment sentence on South Korean pastor Si Young Oh, (a.k.a. Steve Oh) for qualified trafficking of minors.

The SC Third Division found Si Young Oh guilty under Republic Act No. (RA) 9208 or the Anti-Trafficking in Persons Act of 2003.

The ruling also modified the fines and damages imposed on the accused to PHP2.6 million from PHP2.2 million.

Si Young Oh, affiliated with the Korean Christian Presbyterian General Assembly based in Seoul, moved to the Philippines in 2008.

He became the head of a theology school in Pampanga province, but later admitted to operating it without the necessary government permits.

Based on records, Si Young Oh recruited three minors, all aged 17, to study theology and become pastors or missionaries, free of charge.

However, he took advantage of them by forcing them to perform hard labor on church construction projects for little to no compensation.

On April 15, 2013, a joint operation by the Department of Social Welfare and Development and the National Bureau of Investigation led to the rescue of minors and the arrest of Si Young Oh.

In his defense, the pastor argued that the minors did the construction work voluntarily as part of their religious training.

The Regional Trial Court

of Angeles City, Pampanga convicted Si Young Oh of qualified trafficking in 2017, a decision upheld by the Court of Appeals in 2021.

In dismissing his appeal, the Supreme Court found that all the elements of trafficking under RA 9208 were clearly met.

The Court highlighted that trafficking occurs when individuals are recruited, transported, or transferred -- regardless of consent or knowledge -- under threats, coercion, deception, or abuse of power, for exploitative purposes such as prostitution, forced labor, slavery, or removal or sale of organs.

The crime is classified as qualified trafficking, which carries a life sentence, when involving minors or three or more victims.

The Court found that the prosecution proved that Si Young Oh, personally or through an assistant, recruited and transported the minors to become students in his church in Pampanga.

He did this with fraud and deception, taking advantage of the minors' vulnerability and exploiting their religious beliefs.

Finally, instead of offering them theology classes as he promised, he forced them to do manual labor, practically for free.

The Court explained that even if the minors were driven by their religious convictions to agree to do construction work, a minor's consent, even without the use of coercive or deceptive means, is not given out of their own free will. (PNA)

2024 National Arts and Crafts Fair tampok ang mga produktong Pilipino, nagbukas na

Opisyal nang nagbukas noong Oktubre 23, 2024, sa Megatrade Halls 1-3, 5th Level, Mega B, SM Megamall, Mandaluyong City ang pinakahihintay na 2024 National Arts and Crafts (NACF), na patuloy na nagiging plataporma sa pagpapaulad ng creative industry ng Pilipinas, maging ng sining, fashion, at pamanang kultural ng bansa. Si Senador Loren Legarda ang nakaisip at sumusuporta sa NACF mula noong unang edisyon nito noong 2016. Naging taunang selebrasyon ito ng pagkamalikhain ng mga Pilipino, at nagbubuklod sa mga lokal na artisano, katutubo, at micro, small, and medium enterprises (MSME) upang maipakita ang kanilang mga produkto sa mas malawak na merkado. Sa kanyang talumpati sa pagbubukas ng NACF ngayong taon, binigyang diin ni Legarda ang kahalagahan ng fair sa pagpreserba sa tradisyong lokal. "The NACF has served as a powerful platform to mainstream our indigenous arts, crafts, fashion, and cultural heritage into broader markets, allowing local artisans, MSMEs, and our Indigenous communities to gain visibility, access new markets, and sustain their livelihoods," aniya. "In a world where modern technology often overshadows the traditional, their work proves that

nothing can match the beauty of crafts made by hand, with heart and soul poured into every product. They do not just do their crafts for livelihood; they do it to keep the tradition alive, to pass on a piece of their culture, and to safeguard the richness of our heritage for future generations," dagdag ni Legarda. Nagpahayag din ang senadora ng suporta sa mga manlilikha, MSME, at katutubong Pilipino. "To all the artisans, MSMEs, and Indigenous communities. Your work is our heritage. It is who we are as Filipinos. As a steadfast advocate of culture and the arts, I commit that I will continue to honor and preserve the excellence of the Filipino people," pagwawakas ni Legarda. Dahil sa NACF, nagkakaroon ng pagkakataon ang mga mamimili na makabili ng mga produktong tunay na gawang kamay ng mga katutubo, at ng nagkakaroon ng kaalaman tungkol sa iba't ibang kultura at mga tradisyon. Ang NACF, na ginanap hanggang Oktubre 27, ay inorganisa ng Department of Trade and Industry, sa pakikipagtulungan sa Regional and Provincial Offices ng kagawaran, ng Design Center of the Philippines (DCP), ng National Commission for Culture and the Arts (NCCA), at suportado ng tanggapan ni Senador Loren Legarda.

Imee wants 'green infra' included in 2025 budget to mitigate disasters

MANILA – Senator Imee Marcos emphasized on Thursday the urgent need to incorporate funding for green infrastructure in the 2025 budget to effectively tackle typhoon and flooding issues. Marcos is proposing simple community-level solutions, such as expanding mangrove forests, planting indigenous "bayog" (a bamboo species), and using gabions along riverbanks.

"Let's start with simple solutions at the community level, such as expanding mangrove forests and planting indigenous bayog or Bambusa spinosa, which the ancient Filipinos used for housing, and gabion, along riverbanks," she said in a news release.

The senator also suggested replacing cement with permeable materials and constructing a pilot "sponge city" model to absorb heavy rainfall, drawing inspiration from flood-prone areas in China and India.

"The budget is always focused on gray infrastructure, purely concrete structures, but we

Masa at bansa ang kawawa

HINDI na napigilan ang bugso ng damdamin ni Vice President 'Inday' Sara Duterte.

Tuluyan ng kinalaban si Pangulong Ferdinand 'Bongbong' Marcos, Jr.

Damay pati ang nananahimik na yumaong dating Pangulong Ferdinand Marcos, Sr.

Matindi ay ang pahayag ni VP Sara na paghuhukay sa bangkay at pupugutan ang matandang Marcos na ang ulo ay itatapon sa West Philippine Sea.

Bugso man ng matinding galit o kahit sabihing isang uri lamang ng pagbibiro ay sadyang manggagalaiti siyempre ang angkan ng mga Marcos.

Kaya nga ang anak ni President Bongbong na si Ilocos Norte 1st District Rep. Sandro Marcos ay hindi na rin naiwasang magsalita sa isyu.

Bagay na binanggit ng Pangalawang Pangulo na nauunawaan niya ang reaksyon at komento ng

presidential son.

Tungkol pa rin sa usaping paghuhukay sa bangkay ni Marcos, Sr. ay napasama sa banat ni Inday si Justice Secretary Boying Remulla. Sagot naman ng kalihim ay sanay na siya sa ano mang pambabatikos dahil iyon ay bahagi ng trabaho.

Tandem sina Bongbong at Inday na tumakbo sa pagkapangulo at bise noong eleksiyon sa pamamagitan ng Uniteam.

Magkaibigan man noon o hindi basta ang ipinakita nila sa publiko ay ang kanilang tandem na dalawa dati.

Ibig sabihin ay nagkasama sila pero sa ngayon ay lusaw na ang kanilang noon ay tandem.

Pagpapakita lamang talaga ito na sa larangan ng pulitika ay walang kaibigan at walang kasama na permanente.

Sabi nga ang tanging **permanente ay ang pansariling interes.**

Masa at bansa ang kawawa ng giyera sa pulitika.

can't deny that these materials are not permeable and can't absorb rainwater," Marcos pointed out.

"We need to invest in solutions like vertical parks, rooftop

gardens, and void decks. The climate is deteriorating at a faster rate than anyone expected, it's time to fund green spaces even in urbanized zones. No doubt very costly would be the huge underground cistern city centers, such as those found in Amsterdam and Singapore. But far more expensive would be the lives, businesses, and homes that would otherwise be destroyed."

Despite the significant infrastructure budget of PHP1.28 trillion for 2025, Marcos cited the importance of prioritizing green infrastructure over traditional concrete structures.

The Philippines' vulnerability to disasters, as recognized by the United Nations, further underscores the necessity of these measures, she said. **(PNA)**
