'Larawang Kupas'

SINASABING may mga pulitiko na hindi nagpapalit ng kanilang campaign photos sa kabila na ilan taon na ang nagdaan. Mayroon pa nga na dekada na nagamit ang mga litrato o larawan sa kampanyahan.

Ang bagay na ito o usapin ay hindi nakaligtas sa ginawang pagpuna ng Commission on Elections.

Sabi nga ni Comelec Chairman George Garcia ay napakalayo sa realidad kung lumang larawan ang ihahantad.

Dapat ay mga bagong litrato ang gamit ng bawat kandidato at hindi iyong dekada na mga larawan.

'Larawan Kupas' ay bahagi ng kanta na nagpapaala subalit hindi akma para sa halalan.

Tama naman ang puna ng komisyon na halimbawang ang kandidato ay matanda na subalit ang ilalagay na larawan sa campaign poster ay noong bata o kabataan pa.

'Asan nga naman ang katotohanan?'

NIA-Calabarzon needs P200-M to repair 'Aghon' damage on irrigation

CALAMBA CITY, Laguna – The National Irrigation Administration (NIA) reported that Typhoon Aghon caused an estimated PHP200.3 million worth of damage to irrigation systems in the five-province Calabarzon region, directly impacting some 6,015 hectares of agricultural land. In a phone interview on Tuesday, NIA-Calabarzon senior engineer Precious Palacol said about PHP55.3 million will repair damage to irrigation canals, protection works, canal structures and dams. An additional PHP145 million will be needed for comprehensive repairs aimed at ensuring the long-term stability of irrigation structures, she added. Gov't extends assistance for unconsolidated jeepney drivers in Calabarzon

LIPA CITY, Batangas (PIA) – Jeepney drivers who will be affected by the consolidation scheme under the PUV Modernization Program (PUVMP) are set to receive assistance and capacity-building training as the country introduces a more modernized and safe public transport system. Director Loumer Bernabe of the Land Transportation Franchising and Regulatory Board (LTFRB) Region IV-A said during the Kapihan sa Bagong Pilipinas forum on Tuesday, June 4, that it has launched a scholarship and livelihood program for drivers affected by the PUVMP. He said "TESDA (Technical Education and Skills Development Authority) and the Department of Labor and Employment are providing trainings and knowledge to help them find employment. There is [TESDA's] Tsuperlksolar [program], while the DOLE provides schooling allowance while they undergo training," the director explained. Bernabe stated the LTFRB has been encouraging PUJ drivers to form or join cooperatives as part of the franchise consolidation process. He added: "They can join existing cooperatives and corporations that have already consolidated. This is the only assistance we can provide them, but the LTFRB has a program called enTSUPERneurprogram," In partnership with DOLE, the enTSUPERneur program offers alternative livelihoods to affected PUV drivers through the DOLE Integrated Livelihood Program (DILP), providing capital and capacity building in livelihood and entrepreneurship. As of April 30, 21,820 PUV

units traversing 533 routes have been consolidated into a single entity, comprising 82 percent of the total units in the region. For jeepneys, a total of 20,754 units and 443 routes have already undergone consolidation. The remaining 18 percent of unconsolidated units belong to individual jeepney operators, and the LTFRB is urging them to join existing cooperatives that have already consolidated. Once the PUVMP reaches its deadline, consolidated jeepneys may still be used until the arrival of modernized units. Subsequently, older units that were once used for public transport, can be converted into private vehicles. Bernabe said: "When you consolidate, you will continue using your current jeep until the modernized units arrive. Once the modernized units are available, your old jeep will not be confiscated. Instead, you will register it with the LTO to convert it into a private vehicle. These jeepneys can then be used on farms or for transporting your family, but not for carrying passengers." The Kapihan sa Bagong Pilipinas second episode featured the Department of Transportation and its attached agencies, including LTFRB, Land Transportation Office, Philippine Coast Guard, Philippine Ports Authority, and the Civil Aviation Authority of the Philippines, where they provided updates and featured significant accomplishments in improving the transportation sector of the region. **(PB/PIA-4A)**

DOST-SEI, PhilDev launch Scholars Technopreneurship Training Program in NorMin

The Department of Science and Technology – Science Education Institute (DOST-SEI), in collaboration with the Philippine S&T Development Foundation-Manila, Inc. (PhilDev), has launched the Scholars Technopreneurship Training Program (STTP) in Cagayan de Oro City.

Spanning from May to November 2024, this seven-month capacity-building initiative aims to equip DOST-SEI scholars with essential skills in technopreneurship, design thinking, and innovative business and venture planning. Session one took place on May 20-21, 2024 at Limketkai Luxe Hotel, attended by 100 DOST-SEI undergraduate scholars from Northern Mindanao.

“Through the STTP, SEI envisions cultivating an environment where innovation, wealth creation, resilience, and ethical values converge,” said Dr. Josette T. Biyo, former Director of SEI, during her kickoff message.

The program focuses on three main aspects: entrepreneurial skills, idea creation and feasibility analysis, and business planning and execution. Throughout the program, sessions will be held for two days each month, covering modules on the value of innovation, customer needs, market research, developing products or services, business models and plans, business finance and funding, intellectual property, and more.

This structured approach ensures that scholars gain practical knowledge and skills essential for starting and sustaining a business. The culmination of the program in November features a pitching competition where participants will present their startup plans to industry experts and potential investors.

Also in attendance was Engr. Elaine Macatangay-Morales, Executive Director of PhilDev Foundation where she delivered an inspiring message for the participants.

“Today marks the beginning

of an exciting journey - a journey where science meets entrepreneurship, where your ideas have the potential to transform into innovations that can change the world”, Engr Morales said.

Mr. Vince Manglicmot of PhilDev delivered an engaging talk on the history and landscape of technopreneurship in the Philippines.

Mr. Christian Rey Alison of CDOBites provided insights into the current innovation ecosystem in the Philippines and its local setting, correlating how entrepreneurship leads to innovation. He also discussed various types of innovation, including technological, business model, product, and process innovation, giving participants a broad perspective on potential ventures.

Mr. Yukio Toyoshima of PwC Japan also delivered a talk on digital technology innovation and its challenges, presenting case studies demonstrating how digital solutions have improved processes and services in various establishments.

A workshop on design thinking was facilitated by Mr. Diogenes Pascua of USTP-CDO. Valuable pitching tips were discussed by Ms. Monica Mabayan-Ruiz of USTP-CDO, introducing the concept of the elevator pitch and preparing participants for future pitching activities.

Erica Cago, Director of the Northern Mindanao Association of DOST-SEI Scholars (NMADS) and a 3rd-year BS Computer Engineering student at USTP-CDO, shared, “Falling in love with the problem rather than the solution emphasizes the importance of deeply understanding and addressing the core issues faced by users... And that made me want to explore and have interest in creating my own startup.”

Dr. Biyo also highlighted future opportunities for top teams, saying, “For the pitching competition this year, the winning teams

The STTP initiative by DOST-SEI and PhilDev envisions to transform scholars, aiming to instill entrepreneurial skills, foster innovation, and create a network of future technopreneurs in Northern Mindanao. **(Efraem O. Egoc/DOST10)**

The 755 square-meter planetarium, a unique and innovative addition to Mindanao, houses an observatory for observing astronomical activities, a gallery hall, conference rooms, and a dome-shaped theater that displays planets, constellations, and various educational videos about the phenomena that we can see in the sky, inviting the audience to explore and learn.

Sec. Renato U. Solidum emphasized that the Mindanao Planetarium is currently the most modern in the country.

“The inauguration of the Mindanao PAGASA Planetarium here at Brgy. Molugan, El Salvador City, Misamis Oriental is a momentous occasion, marking a significant stride in science education and infrastructure development in Mindanao”, said Sec. DOST, Mapua U launch localized weather monitoring system

MANILA – The Department of Science and Technology (DOST) and the Mapua University launched in Manila on Friday a localized weather monitoring system the latter has developed.

Funded by the DOST-Philippine Council for Industry, Energy, and Emerging Technology Research and Development (PCIEERD) for PHP15 million, the WEHLO (Localized Weather, Environment, and Hydromet) Monitoring System was developed by an engineering team from Mapua University.

In an interview with the Philippine News Agency, PCIEERD Director Enrico Paringit said the WEHLO's intended users are local government units (LGUs) and their Disaster Risk Reduction and Management Offices, but the system can also be offered to other agencies and private sectors needing customized weather and hazard information.

“It not just sends the weather forecast, but gives focus on the effects of heavy rains. It will send analytics on whether there might be flooding or landslides, the areas at risk, the duration. A map would also appear,” he said.

The data will be transmitted via web, short messaging system (text) or social media, he added.

Paringit clarified that although WEHLO is unmanned, it follows the standards of the World Meteorological Organization and the Philippine Atmospheric,

come, first-serve basis. Provide the necessary information along with your preferred date and time of visit. Corresponding fees will apply, ensuring a hassle-free and enjoyable experience for all.

You may send your request to mprsdplanetarium@gmail.com and address your request to Mr. Anthony Joseph R. Lucero, M.Sci. Weather Services Chief Mindanao PAGASA Regional Services Division **(Joshua Robin/DOST10)**

and Geophysical and Astronomical Services Administration (PAGASA), which will also automatically receive every data that WEHLO would transmit.

“The WEHLO would capture the local [weather conditions] and would provide advice and warning to specific areas,” he said. Paringit emphasized that WEHLO would augment LGUs' preparedness, especially since there are not enough PAGASA stations.

Earlier, Deputy Administrator Marcelino Villafuerte II told the PNA there are many areas that don't have a PAGASA station since putting one up would require a lot of resources.

There are 82 PAGASA stations, mostly located in the cities, and 100 automatic or unmanned stations.

With the upcoming La Niña, Paringit said WEHLO is essential as this would provide correct and localized advisories on forecast rainfall.

“Because we expect that La Niña would cause heavy and widespread rains that may result in floods and landslides. It is important that communities are prepared on the hazards and risks,” he said.

Validation tests were already conducted by the WEHLO team with the LGUs of Infanta-General Nakar, Quezon, and Pantabangan-Angat, Bulacan, he said, when asked about WEHLO's proven effectiveness and accuracy.

Meanwhile, Paringit said LGUs need to invest at least PHP1 million to avail of the WEHLO.

“It's a paid service from a spinoff company. The total required budget would depend on the number of instruments the LGUs would need as well as the hazards they need to monitor,” Paringit said.

LGUs and the private sector may contact the WEHLO developers should they wish to avail of the service, or they could inquire from PCIEERD in Taguig City. **(PNA)**

DOST Programs to generate 6,000 more jobs for Filipinos in 2024

Butuan City - For many years, the Department of Science and Technology (DOST) has continuously recognized the significant role of the Micro, Small and Medium Enterprises (MSMEs) in driving innovation, creating employment opportunities, and fostering economic growth in the country through its Small Enterprise Technology Upgrading Program (SETUP).

SETUP is DOST's key strategy to stimulate investments in urban, peri-urban, and rural areas. Through the years, the SETUP has been transitioned to different phases of program implementation to make it relevant to the changing needs and requirements of MSMEs.

Under the program, assisted MSMEs have been empowered to address their technological problems through the acquisition of appropriate technologies, and the adoption of DOST-generated systems and other science and technology (S&T)-based interventions, such as consulting and training services.

Among others, the SETUP assists MSMEs in testing their products for compliance with international standards, package and label their products, and create and manage databases and information systems. It also links them to national and international organizations for the provision of raw material sources, markets, training, financing, and

equipment design and fabrication.

A visit to two of the successful SETUP-assisted MSMEs in the Caraga Region – the RM Wood Product Industry and the Villa Tuna Foods Corporation – offers a glimpse to how these firms generated economic opportunities for local production in the region through technological initiatives.

The RM Wood Product Industry, owned and operated by Mr. Rodolfo B. Pertacorta, applied for SETUP assistance in 2022 to address rising production demands and market growth.

After the DOST intervention, the firm's workforce has grown to 118 from its previous 70 workers. It now produces eight to 10 crates of plywood per 24-hour shift and 2,220 sheets of veneer per day. It has likewise acquired assets estimated at PHP15,000,000.

Also, through the DOST Regional Office in Caraga, the firm plans to establish a laboratory that will specialize in wood, which is seen to generate additional jobs and improve the economic development of the region.

On the other hand, Mr. Archie Moreno, president of Villa Tuna Foods Corp., applied for SETUP assistance to expand his business and create job opportunities for those affected by the COVID-19 pandemic. The business is based in Montalban St., Bayanihan Pob. in Butuan City. Through the SETUP program, the company

acquired a 3,000-kilogram-capacity reefer van (cold storage), effectively cutting its storage expenses and improving its storage capabilities. Prior to the acquisition of the reefer van, the firm outsourced its storage requirements to Gentech.

Today, the company operates eight branches across Mindanao, including two (2) in Butuan City. The Montalban Branch alone has an estimated capitalization of PHP2,000,000.00, reflecting the company's steady growth and success.

The project visit to the two MSMEs was led by DOST Undersecretary for Regional Operations, Engr. Sancho A. Maborang, and DOST-Caraga Regional Director Noel Ajoc.

DOST vows to continue to improve its efforts to support and encourage MSMEs to embrace new technology and develop their entrepreneurial abilities to improve their operational effectiveness, increase productivity, and strengthen

the competitiveness of their products and services.

Since 2022, DOST has assisted 9,612 firms and projects nationwide in the sectors of food processing, furniture, marine and aquatic resources, agriculture, pharmaceuticals, ICT and electronics, gifts, housewares and decor, metals, and engineering.

For 2024, DOST programs such as SETUP and Community Empowerment thru Science and Technology (CEST) target to generate 6,000 jobs in various priority sectors in the entire country.

Additionally, DOST continuously invests in high-impact and sustainable programs that are significant in addressing national concerns, such as CEST and Smart and Sustainable Communities Program (SSCP). This is aligned with research priorities in four major areas, namely, human well-being promotion, wealth creation, wealth protection, and sustainability. **(Dave Masirag)**

BSP raises term deposit facility volume offering

MANILA – The Bangko Sentral ng Pilipinas (BSP) on Wednesday raised the term deposit facility (TDF) volume to PHP290 billion from last week's PHP210 billion. In a statement, BSP Deputy Governor Francisco Dakila Jr. said the allocation for the eight-day tenor was adjusted to PHP140 billion from PHP100 billion. The 14-day tenor was also adjusted to PHP150 billion from PHP110 billion. Dakila said total tenders amounted to PHP293.309 billion, well within the BSP's expected volume range. The BSP said the eight-day tenor was slightly

undersubscribed, while the 14-day tenor was oversubscribed. "The BSP accepted PHP138.331 billion in the eight-day TDF and awarded in full the offered volume in the 14-day TDF," Dakila said. The resulting weighted average interest rate slightly increased by 0.09 basis point to 6.5345 percent in the eight-day TDF and remained unchanged at 6.5761 percent in the 14-day TDF. "Looking ahead, the BSP's monetary operations will remain guided by its assessment of the latest liquidity conditions and market developments," he said. (PNA)

IPAABOT natin ang mainit na pagbati sa lahat ng nagsipagtapos para sa taon na ito. Kahit ano mang antas iyan, kolehiyo, sekondarya, elementarya at maging sa mga pre-school. Siyempre ang pagbati rin sa lahat ng magulang ng mga nag-graduate o sa mga nagsilbing guardian nila. Medyo may mga isyu o usapin lamang sa pamamaraan ng ilang parents sa pagbibigay ng regalo sa kanilang anak na nagtapos sa pag-aaral.
