Energy tipid tips: Labanan ang init nang hindi nabubutas ang bulsa

NAMAMAWIS ka na ba sa inyong electric bill? Alam mo ba na maaaring labanan ang init ng panahon nang hindi nabubutas ang inyong bulsa? Sa matinding init ng tag-araw sa Pilipinas, kung kailan tumataas ang singil sa kuryente kasabay ng temperatura, nagbahagi ang Meralco Power Lab ng mahahalagang kaalaman tungkol sa pagbabawas ng gastos sa kuryente nang hindi kinokompromiso ang ginhawa. Sa ginanap na pagtitipon ng Association of Information Officers in Metro Manila (AIMM) noong ika-22 ng Marso sa Meralco Head Office, ang mga eksperto sa enerhiya ay nagbigay-liwanag sa mga praktikal na paraan upang mapanatiling malamig ang mga tahanan at puno ang mga bulsa. "Kapag energy efficient na ang lahat magkakaroon tayo ng reserved na power para maiwasan ang mga brownout, siyempre gusto ni Meralco na suportahan ang ating sustainable way of living," paalala ni John Pochollo Pabillona ng Meralco Powerlab sa mga information officers ng AIMM, sa layuning tulongang kanilang mga nasasakupan upang maging wais sa paggamit ng enerhiya para hindi mabutas ang kanilang bulsa. Tuwing tag-init madalas sumasabay ang init ng ulo sa bill at natural na dumedepende ang mga tao sa mga cooling appliances gaya ng aircon, electric fan, at refrigerator-mga pangunahing sanhi ng mataas na bill sa kuryente sa mga tahanan. Pero, ayon sa Meralco, maaaring makatipid ng hanggang 71% sa konsumo ng aircon kapag ang temperatura nito ay nasa 18-25°C, presko na tipid pa. "Kapag mayroon tayong

aircon na naka-25°C pwede siyang itandem sa electric fan para mas mapabilis ang pag-circulate ng hangin," sabi ni Pabillona. Nagbigay din si Pabillona ng gabay sa tamang "horsepower" (HP) ng isang air conditioning unit, alinsunod sa sukat ng isang erya, upang matiyak na epektibo at matipid ang paggamit nito, ayon sa kanya:

- 1 HP para sa 18-22 sqm na silid. Ito ay itinuturing na maliit hanggang katamtaman na sukat ng kwarto, na katulad sa mga condominium unit, na kayang lagyan ng isang kama, isang upuan, at isang lamesa o workspace para sa isang katao hanggang dalawa.
- 1.5 HP para sa 23-37 sqm na silid. Ang kwarto ay kasing-laki ng isang "studio apartment" na maaaring lagyan ng pangdalawahang lamesa at isang malaking kama.
- 2 HP para sa 28-40 sqm na silid. Ang laki ay gaya ng isang apartment na maaaring lagyan ng malaking kama, malaking lamesa at mga upuan. "Mas makatipid ka pa kasi mas mapabilis ang pagpapalamig niya [kwarto o silid] by around 12%... Marami nang nag-test even abroad [at] effective talaga ang tip na "yan," dagdag pa niya. Sa isinagawang simulation at testing ng Meralco, kapag siksikan ang laman ng refrigerator ay mas malakas itong humihigop ng kuryente dahil nahihirapang umikot ang malamig na hangin, at kung hindi naman puno ang refrigerator. Payo ni Pabillona, 'wag itodo ang setting sa pinakamalamig dahil maaari kang makatipid ng hanggang 49% sa konsumo ng kuryente. "Kapag ang refrigerator mo ay may leak, ay maaari kang makadanas ng karagdagang 497-500 pesos kada buwan, kasi ang nangyayari ay iyong mainit na hangin sa kwarto ay pumapasok sa loob ng refrigerator doon sa mga leaks (ng rubber gasket)." Mahahalagang makita kung may butas na ang rubber gasket ng refrigerator, kaya naman upang malaman ito maglagay lamang ng bond paper sa pagitan nang pagsaraan, at kapag nalaglag ito ay nangangahulugang may leak na ito. Sa tamang kaalaman at mga simpleng hakbang, hindi lang bahay ang may liwanag kundi pati bulsa ay magaan. (**JCO/PIA-NCR**)

Editorial

'Binubuhay ang bangkay' MAYROONG kakaibang hugot ang ating bise presidente sa pagpapahayag na posibleng mangyari sa kanyang amang si dating Pangulong Rodrigo Roa Duterte ang sinapit noon na asasinasyon ng namayapang former Senator Benigno 'Ninoy' Aquino Jr.. Ito ay kung darating ang pagkakataon na makakabalik na ng Pilipinas ang dating pangulo. Ang agarang impresyon kaagad sa kapaligiran ay hindi dapat ipagkumpara sina Digong at Ninoy dahil sinasabing malayung-malayo ang dalawa. Pwedeng ikonsidera ang pahayag o pananaw ni Vice President Sara Duterte ay hindi paghahambing sa karakter o sa kung ano mang aspeto sina Digong at Ninoy bagkus ay doon lamang sa posibiidad na umano'y asasinasyon. Gayunman sa pahayag ng gobyerno ay wala namang ano mang balita o impormasyon na mayroong pagbabanta sa buhay ni former President Duterte. Sa puntong ito ay tanging pamilya Aquino ang marahil may karapatan na maglabas ng kanilang komento. Kung papahabain pa ang argumento ng nasa paligid ay para na ring 'binubuhay ang bangkay' na dapat ay nana-nahimik na lamang at ipinagdarasal.

Pag arangkada ng 31st season National Capital and Athletics Association Men's Basketball ngayong Abril

Ang IMMACULADA Concepcion College ay nananatiling paboritong manalo sa men's basketball tournament ng National Capital and Regional Athletic Association na magsisimula sa ika-31 season nito ngayong Abril. Ang Blue Hawks ay naghahangad ng ikatlong sunod na kampeonato matapos mapanatili ang titulo noong nakaraang taon sa likod ng malapit na 65-62 panalo laban sa De La Salle University-Dasmariñas sa mapagpasyang Game 3 ng finals.

Kasama ni Sergio ang matagal nang NCRAA General Manager Buddy Encarnado sa lingguhang Philippine Sportswriters Association Forum sa conference hall ng Rizal Memorial Sports Complex kasama ang iba pang mga opisyal ng collegiate league, na sina Joseph Ortega (secretary) ng Philippine Merchant Marine School, Engr. Ted Cada (treasurer) ng Asian Institute of Maritime Studies, at Benjamin Hernandez (auditor) ng host school PATTS College of Aeronautics.

"Sa palagay ko sapat na ang dalawa," dagdag ng opisyal ng La Salle na nakangiti, na inuulit ang intensyon ng natitirang bahagi ng field na pigilan ang ICC na makapuntos ng three-peat. Ang iba pang mga kalahok na paaralan ay ang Lyceum of the Philippines-Laguna, University of Luzon, Olivarez College, Bestlink College of the Philippines, at Integrated School. Ang mga nakaraang alumni ng NCRAA tulad ng magkapatid na Ranidel at Yancy De Ocampo, Vic Manuel, at Gary David ay inanyayahan na mag-grace sa opener na pansamantalang itinakda sa unang linggo ng Abril sa isang venue na hindi pa pinapangalanan. "Ito ang aming maliit na paraan ng pag-ambag sa pambansang pagsisikap lalo na sa programa ng Gilas Pilipinas. Kaya ang isang maliit na liga tulad ng NCRAA ay ginagawa ang lahat ng makakaya nito," diin ni Encarnado, ang dating PBA board chairman at

team manager ng Sta. Lucia sa sesyon na iniharap ng San Miguel Corporation, Philippine Sports Commission, Philippine Olympic Committee, Smart/PLDT, MILO, at ang 24/7 sports app ng bansa na ArenaPlus. Ang format ay magiging isang solong round robin, kung saan ang nangungunang walong koponan ay abante sa quarterfinals, na susundan ng knockout semifinals, at ang finals na magiging best-of-three series. Magkakaroon din ng pagkakataon ang kampeon na koponan na kumatawan sa bansa sa mga internasyonal na paligsahan, ayon kay Encarnado, tulad ng ginawa ng ICC noong nakaraang taon nang makipagkumpitensya ito sa mga pagpupulong na ginanap sa Sydney, Chinese Taipei, at China. Ang mga paligsahan sa basketball at volleyball ay gaganapin sa mga buwan ng tag-init ng Abril at Mayo, na susundan ng iba pang mga sports tulad ng badminton, chess, at table tennis sa Hunyo.

**PCO INKS MOA WITH CICC
TO FIGHT FAKE NEWS**

Presidential Communications Office (PCO) Secretary Jaybee C. Ruiz on Thursday signed a memorandum of agreement (MOA) with the Cybercrime Investigation and Coordinating Center (CICC) in the fight against fake news and misinformation. "The PCO will fight against fake news through a whole-of-government approach," Secretary Ruiz declared during the MOA signing with Cybercrime Investigation and Coordinating Center (CICC) Executive Director Undersecretary Alexander Ramos. Ruiz said the PCO will also leverage the expertise of Scam Watch Pilipinas, a national cybersecurity movement dedicated to educating Filipinos on cyber fraud and addressing cybersecurity gaps at the grassroots level. Ruiz hoped more agencies would join the campaign against fake news and misinformation. "Fake news has become prevalent in recent times. It has become even stronger in the last weeks after

former president Rodrigo Duterte was arrested by Interpol and brought to The Hague in the Netherlands to face allegations of crimes against humanity," he said. "Fighting fake news is the fight of our generation. We should all join hands and work together to win this fight," he added. The PCO has mandated all its attached agencies to designate dedicated fact-checking officers to strengthen internal mechanisms against spreading false information. It has partnered with VERA Files to conduct training sessions to counter misinformation and disinformation. VERA Files is a verified fact-checking partner of Meta that works to debunk false claims circulating online. The PCO also launched a Media and Information Literacy Campaign focused on educating the youth on assessing and validating information sources, helping them distinguish falsehoods from the truth. | PND

**DA, NHA sign MOU to establish
KADIWA stores in housing projects**

By DA

The Department of Agriculture (DA) and the National Housing Authority (NHA) signed a memorandum of understanding (MOU) on Thursday to promote food security and improve access to affordable food through participation in the KADIWA ng Pangulo program. "I am pleased to witness another milestone in the KADIWA ng Pangulo program, expanding its reach to more Filipinos and reinforcing our commitment to food security, affordability, and accessibility," said Agriculture Secretary Francisco P. Tiu Laurel Jr., who signed the MOU on behalf of the DA. "The KADIWA ng Pangulo program is not just an initiative; it is a concrete government action to directly address the agricultural and economic challenges our country faces today," the DA chief explained. "This memorandum of understanding between the Department of Agriculture and the NHA represents a

crucial step in integrating food security into housing communities. Providing homes is essential, but true community development goes beyond shelter. It must also include sustainable food systems, livelihood opportunities, and economic stability," he added. The MOU establishes a framework to institutionalize the KADIWA ng Pangulo program across NHA projects. The DA will assist in identifying and establishing KADIWA stores or centers at NHA-designated locations and will provide logistical and technical support to ensure the program's successful implementation. NHA General Manager Joeben Tai emphasized that the MOU with the DA is a strong demonstration of the housing agency's support for the KNP program. "This is our way of helping residents in NHA housing projects improve their daily lives. The MOU also aims to enhance the livelihoods of our farmers," GM Tai said. DA Assistant Secretary for Agribusiness, Marketing, and Consumer Affairs Genevieve Velicaria-Guevarra stated that the partnership with the NHA is part of the KNP program's broader goal to build "a resilient food supply chain that benefits low-income and vulnerable communities." She added, "This model is not just about providing food; it's about empowering communities, supporting our farmers and fisherfolk, and integrating food systems into everyday life."

Bangsamoro people. With their names on the line, President Marcos reminded the Bangsamoro Parliament officials they must ensure a just and progressive Bangsamoro region. Despite the different faiths and histories that shaped the nation, the President said he expects diversity and difference to not hinder national solidarity. "Let us remember that at the center of our national identity is a common thread that binds us: our longing for peace and for progress," he said. In performing their duties, government officials must embody the traits of a new Filipino: discipline, expertise, and love of country. The president, Quoting Prophet Muhammad regarding public service, said the true essence of

public service is serving Filipinos "with integrity and kindness." During its transition period, the Bangsamoro Parliament is the interim government in the Bangsamoro Autonomous Region in Muslim Mindanao (BARMM). Its term was established in 2019 following the ratification of Republic Act 11054 or the Bangsamoro Organic Law. | PND

DOST, CSU's C-Trike: A Game-Changer for Green Transportation in Tuguegarao

The Electromobility Research and Development Center (EMRDC) of Cagayan State University (CSU) is set to introduce an eco-friendly alternative to traditional tricycles—the C-Trike, a fully electric, zero-emission vehicle designed to cut costs and reduce pollution in Tuguegarao City and beyond.

According to CSU Campus Research Coordinator Michael Orpilla, initial talks have been held with the Federation of Tricycle Operators and Drivers Association (FETODA) in Tuguegarao. Moreover, the group is awaiting a local ordinance that will regulate the use of converted electric tricycles.

With over 7,000 franchised tricycles and thousands more unregistered ones, most tricycles in Tuguegarao either run on 2-stroke or 4-stroke engines, both of which contribute significantly to air pollution.

CSU's C-Trike conversion replaces the traditional mechanical engine with

an electric power system, eliminating harmful emissions and offering substantial savings for drivers: 2-stroke engine costs ₱3.20 per kilometer and 4-stroke engine costs ₱2.30 per kilometer while C-Trike (electric) costs only about ₱0.88 per kilometer. With lower operating costs, tricycle drivers can increase their take-home income, making it a win-win solution for both the environment and the local transport sector.

The C-Trike project, funded by the Department of Science and Technology (DOST) Region 02, is part of CSU's commitment to sustainable innovation. If more tricycles shift to electric alternatives, the transportation sector could achieve the global goal of cutting carbon emissions by 75% by 2030. Through embracing clean energy transportation, Tuguegarao City has the potential to lead the way in sustainable urban mobility, setting an example for other cities in the Philippines. *(Radyo Pilipinas Tuguegarao)*

DOST Region 1's float and mascots dazzle crowd hype science at grand parade

CITY OF SAN FERNANDO, LA UNION—The Department of Science and Technology Region 1 (DOST Region 1) brought science to life at this year's grand people's parade held on March 15, with a spectacular float showcasing innovation and technology, which was made even more exciting by lively mascots that thrilled children and families.

The float featured the smart and sustainable community concept holistically addressing the four (4) pillars of national development on human well-being, wealth creation, wealth protection and sustainability.

The display, which is a sneak peek to the upcoming National Science and Technology Week 2025 (NSTW 2025) in November, showcased mascots Sciglat and Solido, who danced, waved, and interacted with spectators, making science fun and engaging for all.

Sciglat and Solido are the official mascots of DOST Region 1 representing the agency's mission to promote science, technology, and innovation. Sciglat, derived from the Ilocano word "siglat," which means "agile," stands for the branding of DOST Region 1 on spearheading and championing innovations geared towards leveraging and accelerating technologies in the region.

Solido, on the other hand, represents strength and resilience, reflecting the department's focus on disaster preparedness.

The grand parade was participated in by many impressive floats, but DOST's entry stood out for its unique mix of education and entertainment. (Carla Joyce Cajala)

With this successful showcase, DOST not only captured the crowd's attention but also built excitement for the much-anticipated NSTW 2025 in November.

DOST, UIC DAVAO LAUNCH R&D LAB TO PRESERVE MINDANAO LANGUAGE

By DOST

Davao City—The Department of Science and Technology (DOST) and the University of the Immaculate Conception (UIC) launched an R&D laboratory to preserve endangered languages in Mindanao on February 17, 2025.

The new laboratory, Mindanao Natural Language Processing Research and Development Laboratory (MinNa LProc), is funded through the Institutional Development Program (IDP) of the DOST—Philippine Council for Industry, Energy, and Emerging Technology Research and Development (PCIEERD), amounting to P5 million.

This initiative aims to develop Natural Language Processing (NLP) tools and technologies, such as the Multilingual MT System and Conversation Agent (CA), to support language preservation and technological innovation in the region. NLP is a subfield of Artificial Intelligence (AI) and computer science focused on enabling computers to understand and generate human language.

DOST Secretary Dr. Renato U. Solidum Jr. conveyed his steadfast support and eagerness for the project's results. "We are ecstatic that UIC is conserving our past while facilitating advancement with the newest technologies." According to Solidum, their work honors and preserves our cultural heritage through science while also advancing technological developments.

Of the 175 indigenous languages that are currently used in the Philippines, roughly 55 are considered endangered according to the most recent Ethnologue assessment. Children are no longer acquiring these endangered languages as their first language, which is causing the languages to go extinct.

In Mindanao, among the endangered languages are Kinamiging Manobo, Butuanon, Subanon, Bagobo-Klata, Kagan, and Kalagan.

With the extinction of

Philippine languages, UIC, in partnership with the National Commission on Indigenous Peoples (NCIP) XI, wanted to preserve the three endangered languages in the region: Manobo, Kagan, and Mansaka.

"Through our dedicated efforts, we aim to preserve and celebrate the linguistic heritage of Mindanao, that these languages continue to thrive and inspire future generations," said Ms. Kristine Mae M. Adlaon, project leader of MinNa LProc and a professor at UIC.

Currently, MinNa LProc has developed six NLP tools, namely Project iWag, CNLTK, Project ANNA, RK Aligner, Pitik, and Madasigon, which can be found on their website.

"This strategic investment of the DOST-PCIEERD in the development of NLP technologies through the establishment of MinNa LProc ensures that the country is well-positioned to ride with the wave of artificial intelligence (AI) and machine learning technologies. The program also aspires language and cultural preservation," said DOST-PCIEERD Executive Director, Dr. Enrico C. Paringit.

DOST-PAGASA enhances heat index monitoring system amid rising temperatures

MANILA, (PIA) —In line with the 160th National Meteorological Day and the 75th World Meteorological Day, the Philippine Atmospheric, Geophysical and Astronomical Services Administration of the Department of Science and Technology (PAGASA) has announced significant improvements to its Heat Index Monitoring and Forecasting System to provide more accurate and localized information on heat stress conditions nationwide.

The heat index, or "apparent temperature," indicates how hot it feels when humidity is factored into the air temperature. With extreme heat events becoming more frequent, DOST-PAGASA has upgraded its capabilities to help communities better prepare for heat-related risks. Key enhancements include:

- **Expanded Monitoring Network:** Additional weather stations have been integrated, improving the accuracy and localization of heat index readings.

DOST, BPI Foundation help students with special need educ in Romblon

ODIONGAN, Romblon (PIA) — Students with special needs in three schools in Odiongan, Romblon will now have better access to digitalized education following the turnover of information and technology equipment by the Department of Science and Technology – Science and Technology Information Institute (DOST-STII) and the BPI Foundation. The Odiongan North Central Elementary School, Odiongan South Central Elementary School, and Odiongan National High School are the program beneficiaries.

The donated equipment is part of DOST-STII's STARBOOKS (Science and Technology Academic and Research-Based Openly Operated Kiosk Stations) program. STARBOOKS is a digital library designed to provide access to science, technology, engineering, and mathematics (STEM) resources, particularly in remote and underserved areas with limited or no internet connectivity.

According to DOST Romblon Provincial Director Marcelina Servafez, the initiative initially started with a small fund from their office and later expanded with additional support from DOST-STII and the BPI Foundation. Servafez emphasized that the additional equipment will benefit not only SNED students but also those in other academic programs within the schools.

"Looking forward doon sa paggamit ng ating

STARBOOKS para mas ma-inspire kayo na pumunta kayo sa larangan na kayo ay maging future engineers, future scientists, at future researchers," she added.

Aside from the IT equipment—three tablets, a computer, a TV, a Wi-Fi router, and a printer—BPI Foundation also donated school supplies to all students in the beneficiary schools.

In an interview, Reynante Lorenzo, principal of Odiongan North Central Elementary School, expressed his gratitude and optimism about how the new equipment will benefit their students.

"Marami siyang maitutulong in education at 'yung manipulation ng mga bata ay ma-enhance talaga," Lorenzo said.

He also thanked DOST for selecting their school as one of the beneficiaries of the agency's digitalization program, emphasizing how it will help bridge the digital divide and enhance learning opportunities for their students.

With the integration of STARBOOKS, students will now have access to a vast collection of educational resources that can help improve their learning experience, research skills, and exposure to science and technology.

DOST continues to expand the STARBOOKS program nationwide, bringing digital education solutions to more schools and communities, ensuring that even those in the most remote areas can benefit from modern learning opportunities. *(PJF/PIA MIMAROPA-Romblon)*

PAGASA urges the public to take necessary precautions to prevent heat-related illnesses, such as heat exhaustion and heat stroke.

The agency also encourages local government units, schools, and workplaces to implement heat stress mitigation measures during extreme heat conditions.

"PAGASA remains committed to providing reliable climate and weather services to ensure the safety and resilience of all Filipinos against extreme weather conditions," the agency said.

PBBM extols Army's role in war and peace

President Ferdinand R. Marcos Jr. on Saturday expressed his deep appreciation for the contributions of the Philippine Army during both combat and peacetime. Speaking at the 128th founding anniversary of the Philippine Army at its headquarters in Taguig City, President Marcos lauded the Army's commitment to national defense, constitutional integrity, and public safety. "As we mark the 128th Founding Anniversary, we are again reminded why we choose to serve. We do it not for ourselves, but also for the countless generations that will come after us," President Marcos said.

The President said soldiers should be recognized not only for their courage but also for their resilience when facing challenges.

"Kinakailangan ang [paninindigang] hindi natitinig sa harap ng pagsubok, ang prinsipyong hindi nababaluktot ng takot o pangamba, at ang pusong laging handa maglingkod nang tapat at walang hinihintay na kapalit," the President said. The President said soldiers should consider the greater good, irrespective of rank and power.

"Ang tunay na sukatan ay ang kahandaang na isantabi ang sariling interes para [sa] mas mataas na layunin. Bagama't iba iba tayo ng papel na ginagampanan, dapat mangibabaw ang ating adhikaing bumuo ng mas nagkakaisa, mas makatarungan, at tunay na mapayapang bansa," he said.

The President likewise praised the Army's excellence, demonstrated by its high scores in policy and facility assessments during the General Security of Military Information Agreement evaluation.

He stressed the significance of leadership, integrity, and unity in creating a stronger and more peaceful Philippines. While the Army has consistently addressed various security issues, it should adapt to evolving security challenges,

including cyber threats, he also said.

"Every Filipino wants their children to grow up in a country where they are safe, where they have access to quality education, and where they can build a future that has opportunities awaiting," the President said.

Recently, 6,000 troops participated in the second round of the Combined Arms Training Exercise (CATEX Katihan) to enhance the Army's combat readiness and improve its capability to respond effectively to any threat.

The President said the government's efforts will reinforce the Army's welfare programs because "those who dedicate their lives to serve the country must be supported."

Other programs for the Army include the Mandatory Annual Physical Examination, Reimbursement of Hospital Expenses, and MOWEL Support for Wounded-in-Action Personnel, along with streamlined processes to ensure faster access to benefits.

The President has issued Executive Order No. 84, increasing the subsistence allowance of all officers and personnel of the Armed Forces of the Philippines (AFP).

"These efforts are part of a broader vision: a nation where Filipinos no longer need to worry about their safety, where they can build a more dignified lives for themselves and for their families," he said.

President Marcos also commended Army Chief Lt. Gen. Roy Galido for upholding a standard of excellence that marks the Philippine Army's worth of people's trust and respect. "As your Commander-in-Chief, I enjoin you to stay relentless in your pursuit for excellence. Sharpen your skills, master your craft, embrace innovation," the President said.

"After all, the Philippine Army's strength extends beyond firepower. It draws from its personnel's honor, integrity, and fortitude," he added. | **PND**

BSP URGES FINANCIAL INSTITUTIONS TO STRENGTHEN SYSTEMS AGAINST VOTE BUYING OR SELLING

By BSP

The Bangko Sentral ng Pilipinas (BSP) has issued a memorandum to BSP-supervised financial institutions (BSFIs) to strengthen their surveillance and monitoring systems against vote buying and selling ahead of the May 2025 elections.

BSP Memorandum No. M-2025-006, signed on 23 March 2025, specifically instructs BSFIs to take steps to counter the abuse or misuse of digital channels, such as online banking and mobile wallet applications, for vote buying and selling.

More generally, the BSP instructed BSFIs to ensure that customer onboarding processes, fraud management systems (FMS), and account and transaction monitoring settings can mitigate the possible influx of fraudulent accounts and transactions during the election season.

The BSP suggested that BSFIs watch for red flags, such as a surge in account registrations in areas known for vote buying or selling, large cash transactions

during the election period, unusual transaction patterns, and high volume/value in cash-in or cash-out channels.

The BSP memorandum, similar to memoranda issued in previous election cycles, responds to the call from the Commission on Elections (COMELEC) through Resolution No. 11104, dated 28 January 2025, for stricter mechanisms against vote buying and selling.

The BSP is collaborating with COMELEC and the Philippine National Police (PNP) to address election-related vote buying or selling via financial platforms.

TRANSFORM, WAGI SA MAIDEN RACE!

Nagwagi ang outstanding favorite na kabayo na si Transform sa pambungad na karera na "3 Year Old & Above Maiden Race" na ginanap noong nakaraang linggo sa karerahan ng Metro Manila Turf Club Inc. (MMTCI) sa Malvar Tanauan City, Batangas. Lulan ng hineteng si John Sajhed De Ocampo ay pinasaya ni Transform ang kanyang mga taga-suporta lalo na ang mga liyamadista matapos manalo sa naturang karera. Sa pagbukas ng aparato ay nakauna sa paglundag si Spellbound pero humataw kaagad si Sega Toulin upang mahawakan ang bandera, kasunod ang kanyang kakuwadra na si Cowboy Silver, pang-apat si Flying Clay habang nasa panlimang posisyon ang bida na si Transform. Pagsapit ng back stretch ay wala pa rin nagbago sa pagkakasunod ng mga kabayo, bandera pa rin si Sega Toulin at nakaabang pa rin sa panlimang

puwesto si Transform. Pagpasok ng far turn ay namamayagpag pa rin sa unahan ang couple runner na sina Sega Toulin at Cowboy Silver, sumisingit naman sa bandang gitna si Spellbound at kumakaripas sa gawing labas si Transform. Papalapit ng home stretch ay patuloy ang pag-arangkada ni Transform sa gawing labas ngunit sinasabayan siya ni Spellbound upang makakapit sa unahan. Pagsungaw ng rekta ay bakbakan pa rin sa harapan sina Transform at Spellbound pero pagdangat sa huling 100 meter ay nakaungos na ang winning horse. Tinawid ni Transform ang meta ng may isang kabayong agwat sa pumorkas na si Spellbound, pasok sa trifecta si Cowboy Silver habang si River South ang bumuo sa quartet. Pumoste si Transform ng tiyempong 1:27.6 (13'-23'-27") para sa distansyang 1,400 meter.

government that are currently in the pipeline. These projects include the Parañaque Spillway Construction Project, the Philippine Coast Guard Support Facility, the National Digital Terrestrial Television Broadcasting Network Project, and the Second San Juanico Bridge Construction Project.

Balisacan emphasized the need to sustain these investments, implement policy reforms, strengthen institutions, and recognize the importance of innovative financing solutions as the Philippines progresses toward achieving upper middle-income country status.

"Our discussions also underscored the importance of innovative financing solutions. With concessional loans becoming less accessible, we recognize that Public-Private Partnerships will play a greater role in infrastructure development. We look forward to expanding our cooperation in this area and leveraging Japan's expertise to enhance

private sector engagement for priority projects," said the country's chief economic planner.

The meeting also saw the ceremonial signing of the loan agreements for the following projects:

1. The Davao City Bypass Construction Project;
2. Phase IV of the Pasig-Marikina River Channel Improvement Project;
3. The Cavite Industrial Area Flood Risk Management Project;
4. The Climate Change Action Program, Subprogram 2, and
5. The Build Universal Healthcare Program, Subprogram 2.

The Joint Committee on Infrastructure Development and Economic Cooperation was established in January 2017 after the state visit of then-Prime Minister Shinzo Abe to the Philippines. It aims to facilitate the monitoring of ongoing infrastructure and economic cooperation projects in the Philippines, as well as to address issues and challenges encountered during project implementation.

PALACE: PROMOTE ALL REGIONS' CULTURE, UNIQUENESS

Every region in the Philippines has its own distinct culture and unique offerings worthy of recognition, Presidential Communications Office (PCO) Undersecretary and Palace Press Officer Claire Castro said on Thursday.

Castro said as she explained why President Ferdinand R. Marcos Jr. vetoed a bill declaring Pampanga as the culinary center of the Philippines.

During Thursday's press briefing in Malacañang, Castro said that the goal is to recognize and promote the diverse cultures and uniqueness of all regions in the country.

"Ang atin pong bawat rehiyon po ay may kaniya-kaniyang kultura, may kaniya-kaniyang kagalingan... may uniqueness na tinatawag," Castro said.

"Kaya po ito venito [veto]. Hindi naman para po hindi

paniwalaan na masarap o maganda ang kultura ng Pampanga pero para po kilalanin ang buong rehiyon, ang bawat rehiyon sa kanilang kagalingan," she said.

Castro also said that the President's decision removed the connotation that the region or province is the only possible best food destination for tourists.

"Kung lalabas po na may pipiliin po na isa lamang na rehiyon na parang siya po iyong pinakamasarap, or pinakamagaling, pinakamaganda, baka po maisip ng ibang tao especially iyong mga dayuhan na nais pumunta sa Pilipinas, isiping iisa lang na rehiyon ang maaari nilang puntahan at sasabihing pinakamaganda at pinakamasarap na pagkain na local foods," Castro said. |

8 towns in Calabarzon tagged as 'areas of concern'

CALAMBA CITY (PIA) — The Police Regional Office in Southern Tagalog has identified eight election hotspots or areas of concern for public security ahead of the 2025 National and Local Elections.

During a meeting with the Calabarzon Regional Peace and Order Council (RPOC) on March 20, police identified several municipalities in Laguna, Batangas, and Quezon as Election Areas of Concern (EAC).

Police identified the towns of Sta. Maria in Laguna; Mataas na Kahoy, San Jose, Taal, and Tanauan City in Batangas; and Candelaria and San Francisco in Quezon Province as "yellow" election areas of concern. Meanwhile, Tagkawayan is the only municipality placed under the Orange category.

Meanwhile, the remaining 128 areas in the Calabarzon region were classified as green areas, indicating no security concerns and a relatively peaceful and orderly environment for the upcoming elections.

Under Comelec Resolution No. 11067 stated that the Philippine National Police (PNP) and Armed Forces of the Philippines (AFP) are authorized to classify all areas in the country under

four categories: green, yellow, orange, and red.

The areas under the green areas have no security concerns and are relatively peaceful and orderly for conducting elections.

Yellow areas are those that have reported suspected election-related incidents in the last two elections, provided there was no participation of domestic terrorist groups.

Orange areas exhibit a combination of two or more factors under the yellow category and face serious armed threats by communist terror groups (CTG).

Meanwhile, red areas face serious threats posed by CTGs and other armed groups. These areas are monitored due to violence and intense political conflicts among candidates and their supporters.

The Commission on Elections (COMELEC) also trained 197 PNP personnel who can be deputized as Special Electoral Board months ahead of the 2025 polls.

Around 13, 679 personnel from PRO CALABARZON underwent a series of seminars on election laws and guidelines, as well as seminars on Basic Life Support, and operating generator sets, among others. (PB/PIA4A)

Tatlo sa mga pambato ng Alyansa ay anak o tubo ng Cavite na kinabibilangan nina Revilla, Tolentino at Lacson.

Ipinaliwanag ni President Marcos sa mamamayan ng Cavite na kaya tinawag na Alyansa ay dahil binubuo o pinagbuklod ito ng mga pinakamahuhusay at lahat ay mayroong p i n a k a m a h a b a n g karanasan gayundin ang malalim na karunungan sa larangan ng pagseserbisyo publiko.

Bago ang proclamation rally ay isinagawa muna ang pulong balitaan sa bagong Kapitolyo ng Cavite sa Trece Martires City. Kabilang sa mga humarap sa mga mamamahayag ay sina Lacson, Tulfo, Tolentino, Sotto, Abalos, ang campaign manager na si Navotas City Rep. Toby Tiangco at nakahabol naman si Binay.

Natalakay ang tungkol sa kabuhatan o trabaho sa lalawigan na para kay Sotto ay magandang pagtuunan ang mga magsasaka at mangingisda gayundin ang paglikha ng mga livelihood program.

Si Sotto ang nagpasa noon na may kaugnayan sa Fisheries and Aquatic Code na kailangan umanong rebuyhin at kung maaari ay dapat updated at upgraded.

Binanggit naman ni Lacson na ang Cavite ay pinakatrangkahan umanong Metro Manila papunta ng Southern Luzon kaya mahalagang pagyamanin ang micro, small and medium enterprises dahil kung hindi tutulong ang MSMEs ay maaaring mag-collapse ang ekonomiya.

Kung gustong dumami ang trabaho sa pananaw naman ni Tolentino ay dapat maraming factory o negosyo at makakatulong sa paghikayat ng mga investors ang tapyas sa buwis sa kuryente.

Sa usapin naman sa mga nagsusulputang subdivision sa Cavite na dahil nakabinbin pa rin ang National Land Use Plan ay isinasaad naman sa Local Government Code na may kapangyarihan ito sa pagpapaimplementa.

May Comprehensive Land Use Plan ang Cavite na nababalanse naman para protektahan ang agriculture land.

Naniniwala naman si Tulfo na maipapasa rin ang National Land Use Plan pero aniya na kailangang suportahan ang mga magsasaka upang hindi maibenta ang lupang sakahan.

Duterte o pro Marcos.

Mas mahalaga umanong tingnan ang kwalipikasyon ng mga kandidato pero ayon kay Tiangco kung ikukumpara ay mas qualified ang Alyansa candidates.

Kung pagsasamahin umano ang ang qualified qualification ng Alyansa at ang mga magagandang proyekto ni Pangulong Marcos ay mas

mapapabilis ang pag-unlad ng Pilipinas.

Nitong Miyerkules, Marso 26, ay inanunsuyo ni Senator Marcos ang kanyang pagkalas sa Alyansa at muling sinariwa ang dating pahayag na sa simula ng panahon ng halalan ay patuloy niyang ipananatili ang kanyang kalayaan kaya siya ay tatayo bilang independiyente. (RS)

Mas aapaw ang mga peke

SA pagratsada ng kampanyahan para sa mga lokal na posisyon ay asahang mas madadagdagan pa ang pag-apaw ng mga peke.

Kung nangyayari sa nasyunal ay natural lamang na ganoon din sa local level. Kapag nagsalita ang isang partido ay karaniwang maririnig sa kalaban na iyon ay mga peke lamang o walang katotohanan.

Sa madaling salita ay kanyang patutsadahan na siyempre ay pare-parehong hindi magpapadaig. Kumbaga ay tama para sa kanya at ikaw ang mali o ikaw ang tama at siya ang mali.

Sa mga ganitong banggaan o bangayan ay ipinapakita at isinisiwalat ng magkabilang kampo ang kanilang mga pananaw.

Tinatayuan at pinaninindigan ang suporta sa kandidato na pinaniniwalaan na ang iba ay tila handa pang makipagpatayan o makipag-away.

Huwag naman sana dahil sa larangan ng pulitika ay tandaan na walang permanenteng kaibigan o kaaway bagkus ay permanenteng interes.

Paano kapag dumating ang panahon na ang mga pulitikong inyong pinag-aawayan ay magiging magkaalyado na?

Ang mahirap ay kapag nagkaroon ng lamat sa inyo na ang dahilan ay dahil sa pagbabangayan para sa mga kandidato o pulitiko.

Kung hindi inaasahan na magkakasalubong ang magkalabang kandidato sa pangangampanya ay dapat mahinahan lamang ang mga tagasuporta at iwasan ang pagpapasaring o asaran.

Iwasang buong-buo na ibigay ang sarili sa sinusuportahan at tinutulungang kandidato dahil ang pagbabago ay makikita pagkatapos ng halalan.

Halimwabang natapos na ang eleksiyon at nailuklok na sa puwesto ang nanalong kandidato ay doon na magsimulang mag-observa. Sa pagmamasid at sa mga bagay-bagay na masasaksihan ay saka lamang mapagtatanto ang totoo at maaaring masambit na peke pala.

Kaya lang huli na para sa pagsisisi.

minerals), at 110 (transporting minerals without a permit) na may kaugnayan sa Section 53 ng Republic Act No. 7942

(Philippine Mining Act of 1995) ang mga suspek. **RUBEN LACSA**

Hindi naman binanggit kung kailan at anong oras gagawin ang pag-atake sa mga campuses ng CAVSU. Dahil dito ay agad namang ipinag-utos ng pamunuan na makipag-coordinate sa pulisya. Matatandaan na una ng

nakatanggap ng tawag na halos sabay-sabay ang limang campuses ng CAVSU kabilang ang main sa Indang, Bacoor, Carmona, Silang at Cavite City na umano'y pasasabugin. Nagsagawa ng imbestigasyon ang pulisya hinggil dito. (**Gene Adsuara**)
