PBBM, nanawagan sa LGUs na tumulong palakasin ang healthcare initiatives ng gobyerno

Hinimok ni Pangulong Ferdinand R. Marcos Jr. nitong Miyerkules ang mga local government units (LGUs) na palakasin ang kaalaman ng publiko hinggil sa mga programang pangkalusugan dahil maraming mga Pilipino ang hindi batid ang mga benepisyo at ayuda na maaari nilang makuha sa pamahalaan. Binigyang diin ni Pangulong Marcos sa panunumpa sa tungkulin ng mga bagong halal na opisyal ng Provincial Board Members League of the Philippines sa Malacañang, na mahalaga ang papel ng mga LGU para makarating maging sa malalayong komunidad ang mga programa ng gobyerno. "The other example that we need your help in local government is 'yung sa healthcare system natin. Maraming-marami tayong niro-roll out, pero ang problema, hindi pa alam ng ating mga kababayan na may ganoon,"

barangay dakong alas-4:50 ng hapon nitong Mayo 19. Sa pagkakaaresto sa mga suspek ay nagresulta sa pagkakasamsam ng humigit-kumulang 65.00 gramo ng hinihinalang shabu na may tinatayang Standard Drug Price na P442,000.00. Kumpiskado rin ang sampung pakete na naglalaman ng hinihinalang shabu, isang sling bag, isang digital weighing scale, at isang piraso ng P500.00 bill na ginamit bilang buy-

ani Pangulong Marcos. Binanggit ng Pangulo ang programang Zero Balance Billing o ZBB, na halimbawa ng programa ng gobyerno na kinakailangan pang malaman ng publiko, kung saan sinabi ng Punong Ehekutibo na "nagugulat ako hanggang ngayon, kasi panay sigaw ko ng Zero Balance Billing at hanggang ngayon, hindi alam ng marami." Sa ilalim ng ZBB, nagbibigay ito ng libreng serbisyong medikal sa mga pasyenteng naka-confine sa basic ward accommodations ng mga ospital ng Department of Health. Ipinunto rin ng Pangulo ang pinalawak na benepisyo ng Philippine Health Insurance Corporation, kabilang ang mas mataas na coverage para sa dialysis, gamutan sa cancer, at maternal healthcare. Ibinahagi rin ni Pangulong Marcos na marami pa ring pasyente ang nagreklamo sa mataas na presyo ng gamot kahit may umiiral nang mga programa ng pamahalaan gaya ng libreng gamot na umaabot sa Php20,000 kada taon. "Tapos mayroon 'yung may sector ng community, nagbibigay naman tayo ng allowance na every year, Php20,000 na free medicine. So, hindi alam ng tao ito. Kasi pumupunta pa ako sa hospital, sasabihin sa akin, "Ay naku, kasi napakamahal ng gamot." Eh sabi namin eh, "Teká, hindi ka dapat nagbabayad ng gamot," diin ng Pangulo. "So, dapat ipaano (ipaalam) natin," dagdag pa ni Pangulong Marcos. **(PCO)**

PHILHEALTH'S EXPANDED BENEFITS DELIVER REAL IMPACT AS PRIVATE HOSPITALS STEP UP FOR FILIPINO PATIENTS

PASIG CITY — PhilHealth's expanded benefit packages are now delivering tangible results for millions of Filipinos, significantly reducing out-of-pocket health expenses while inspiring stronger participation from the private healthcare sector. Over the past two weeks, President Ferdinand R. Marcos Jr. and PhilHealth President and CEO Dr. Edwin M. Mercado personally witnessed how these reforms are transforming healthcare access in two leading private hospitals.

On May 1, President Marcos and Dr. Mercado visited St. Elizabeth Hospital, Inc., where PhilHealth members were actively benefiting from the agency's expanded healthcare packages, including YAKAP primary care consultations, cancer treatment services, and life-sustaining dialysis care. The visit showcased how PhilHealth's strengthened benefits are helping patients access essential treatment earlier while shielding families

from the financial burden of illness.

Last May 11, the President visited The Medical City in Ortigas, where he inspected the newly opened Alfredo R.A. Bengzon Patient Access Ward, a 51-bed facility designed to provide world-class healthcare services to PhilHealth members with little to no out-of-pocket expenses. The facility, which includes nine mother-and-baby-friendly rooms, stands as a powerful example of what can be achieved when private hospitals fully embrace their partnership with PhilHealth in advancing accessible, high-quality healthcare. Patients and their families shared firsthand how expanded PhilHealth coverage protected them from catastrophic medical expenses and allowed them to focus on recovery instead of financial hardship.

"The question is not capability, but will—the will to look at every PhilHealth member and

say, 'You belong here, too.'" said Dr. Mercado. "Decades from now, no one will ask how many private suites a hospital had. They will ask how many lives were saved and changed."

Building on these successes, PhilHealth is calling on more private hospitals, specialty centers, and clinics nationwide to join this shared mission of making quality healthcare truly accessible to every Filipino. The agency remains ready to support healthcare facilities seeking accreditation across its growing range of benefit packages—including primary care, outpatient emergency services, inpatient care, maternity services, dialysis, cancer care, and treatment of catastrophic illnesses under the Z Benefits Program.

Healthcare institutions interested in partnering with PhilHealth may visit PhilHealth Official Website or coordinate with the nearest PhilHealth Local Health Insurance Office

100% Birth Delivery in a Health Facility Almost Achieved in CALABARZON

The Philippine Statistics Authority (PSA) released the results of the 2025 National Demographic and Health Survey (NDHS), highlighting significant demographic and health developments in CALABARZON. The survey provides updated indicators on fertility, maternal and child health, family planning, child development, and violence against women that support evidence-based planning and policy formulation in the region.

Results showed that maternal health indicators improved in 2025. Nearly all births in CALABARZON were delivered in a health facility (99.5%) and aided by a skilled provider (99.5%). Antenatal care remained high, with 90.3 percent of mothers receiving care from skilled providers. While, postnatal care coverage also improved, with 80.3 percent of mothers receiving postnatal checkups within two days after delivery. The lowest Total Fertility Rate (TFR) in the country was recorded in the region

at 1.3 children per woman in 2025, lower than the 1.8 children per woman recorded in 2022. This remains below the replacement fertility level of 2.1 children per woman, showing the continued decline in fertility in the region.

Teenage childbearing also continued to decrease. The proportion of women aged 15 to 19 years who had begun childbearing declined to 4.5 percent in 2025 from 4.9 percent in 2022, the lowest level recorded in the region since 2003.

On family planning, contraceptive use among currently married women aged 15 to 49 years increased to 60.2 percent in 2025, from 56.9 percent in 2022. Specifically, use of modern contraceptive methods also increased to 42.1 percent, from 36.9 percent in 2022. Moreover, unmet need for family planning declined to 11.3 percent.

Child health indicators showed mixed results. Under-five mortality declined to 20 deaths per 1,000 live births in 2025

from 26 deaths per 1,000 live births in 2022. Also, infant mortality slightly improved from 19 to 18 deaths per 1,000 live births. However, neonatal mortality slightly increased from 14 to 15 deaths per 1,000 live births.

The proportion of children fully vaccinated according to the national schedule declined to 69.7 percent in 2025 from 82.3 percent in 2022. Despite this decline, the percentage of children who did not receive any vaccination improved from 5.9 percent to 2.2 percent.

Results on child discipline showed improvement in the use of non-violent discipline methods. The proportion of children aged 1 to 14 years experiencing any violent discipline declined to 51.3 percent in 2025, from 60.1 percent in 2022; while those experiencing only non-violent discipline increased to 44.7 percent, from 34.0 percent in 2022.

On violence against women, 14.0 percent of women aged 15 to 49 years who had a husband or intimate partner experienced emotional, physical, or sexual violence from their current or most recent partner.

The PSA emphasized that the 2025 NDHS serves as important source of data for national and local governments, policymakers, and other stakeholders in developing programs and interventions aimed at improving the health and well-being of Filipinos.

with 85.3 percent in the previous year.

Meanwhile, the proportion of youth not in education, employment, or training (NEET) remained unchanged at 13.6 percent in 2025.

SSS commits to faster, streamlined services as ARTA marks 8th year

QUEZON CITY, – The Social Security System (SSS) reaffirmed its commitment to faster and more responsive public service as it joins the Anti-Red Tape Authority (ARTA) in celebrating its 8th anniversary on Friday, May 22. SSS President and Chief Executive Officer Robert Joseph M. de Claro said the agency continues to strengthen frontline services, simplify processes, and modernize systems to better respond to member concerns, in line with the shared goal of improving government service delivery for Filipinos.

"As one of the country's largest public service institutions, SSS recognizes that every transaction affects the daily lives of our members. We continue to improve our systems, processes, and frontline services because faster and more responsive government service is not only an operational goal, but a public responsibility," de Claro said.

"The agency's strong financial performance in 2025 has strengthened its capacity to expand member assistance programs and accelerate reforms aimed at improving service delivery", de Claro added.

In 2025, SSS posted a net income of P142.97 Billion while its Reserve Fund surpassed the P1 Trillion mark for the first time in the institution's history, a major milestone that further strengthens the long-term stability of the pension fund for current and future members. "Our strong financial position

allows us to invest directly in better services, new technologies, infrastructure upgrades, and programs that will improve the experience of our members," de Claro said. He also highlighted the agency's expanded relief programs designed to help Filipino workers and families cope with the continuing impact of the national energy emergency. As part of these efforts, de Claro said SSS is also preparing to roll out an Energy Sustainability Loan Program in September. The program allows qualified SSS members with a Mandatory Provident Fund account to avail themselves of financing to install residential solar panel systems, payable for up to seven years. The Mandatory Provident Fund Program is a compulsory retirement savings scheme

that automatically enrolls SSS members who are contributing to the regular SSS program with a Monthly Salary Credit (MSC) above P20,000. SSS aims to support at least 100,000 homes by 2028 through the program, which seeks to help families manage rising electricity costs while promoting long-term energy sustainability. According to de Claro, the initiative reflects the evolving role of SSS in responding not only to traditional social security concerns, but also to emerging economic pressures affecting Filipino households. "As ARTA continues to push for reforms in government service delivery, SSS remains committed to developing programs that are more responsive, practical, and relevant to the everyday realities of the Filipino people," de Claro said.

Fully Connected CAVITEX C5 Link Enhances Logistics Efficiency and Reliability

The logistics sector is recognizing operational predictability and asset efficiency as key benefits following the opening of the CAVITEX C5 Link Segment 3B.

Segment 3B is the final segment that completes the alignment of the 7.7-kilometer CAVITEX C5 Link, establishing a direct connection between the Manila-Cavite Expressway (CAVITEX) and C5 Road in the City of Taguig.

While the industry continues to operate under challenging economic conditions, leaders note that the ability to bypass traditional urban bottlenecks provides a critical edge in maintaining supply chain reliability.

"The opening of the CAVITEX C5 Link Segment 3B eases up our daily transport movements, helping us keep up our delivery timelines and optimize our resources," said Doris Torres, Executive Director of the Philippine Multimodal Transport and Logistics Association, Inc. (PMTLAI). "We welcome infrastructure that eventually reduces the total cost of logistics in the country."

At the operational level, the expressway significantly improves turnaround time. A route that previously took up to 1.5 hours can now be completed in as little as

15 minutes, enabling more consistent and predictable scheduling.

Arlyn Abello, Account Manager at Premier Global Logistics Corp., shared that improved traffic flow has enhanced fleet performance. "It has helped enhance the efficiency of our deliveries, allowing us to better meet our schedules and improve overall service reliability," Abello said.

Llalaksmi Freight Services Inc. also emphasized that the expressway enables them to avoid heavily congested inner roads, saving on operational costs and prioritizing driver welfare. "It helps reduce delays, fuel consumption, and overall stress for our drivers, which is a big factor in keeping operations smooth. Because of this, we're able to serve our clients more efficiently, particularly for time-sensitive shipments," the company stated.

While the alignment is now fully connected, a portion of Segment 3B is currently operating under a modified scheme, with two lanes in each direction, as the remaining Right-of-Way (ROW) concerns are being addressed to achieve its full six-lane capacity with a 2x2 service road.

Even in its current state, the project significantly enhances network connectivity, enabling logistics companies to better manage fleet utilization and ensure that time on the road is spent moving goods rather than idling in traffic.

The CAVITEX C5 Link expressway is a joint venture between Metro Pacific Tollways Corporation's (MPTC) subsidiary, the Cavite Infrastructure Corporation (CIC), and the Philippine Reclamation Authority (PRA), and operated by the PEA Tollway Corporation (PEATC).

NMDRRMC REPORTS 79.6% CONTAINMENT OF NAVOTAS SANITARY LANDFILL FIRE

The Metro Manila Disaster Risk Reduction and Management Council (MMDRRMC) convened to provide a status update on the Navotas Sanitary Landfill fire incident, reporting that the fire is now 79.6% contained.

In a press briefing, MMDA Chairman and concurrent MMDRRMC head Atty. Don Artes said the discussion focused on the situation on the ground, ongoing actions, and the equipment being utilized to effectively address the issue.

“Moving forward, the incident will serve as a learning experience to improve preparedness and response capabilities,” Artes stressed.

President Ferdinand Marcos Jr. instructed Department of National Defense (DND) Secretary Gilberto Teodoro Jr. to seek technical assistance from foreign partners, including expert teams from Japan and the United States, to address the Navotas Sanitary Landfill fire.

“The DND chief reached out to our foreign partners, who promptly responded and committed to providing continued support for the needs of Navotas,” said Special Envoy for Disaster Risk Reduction and Management (DRRM) Maria Antonia Yulo-Loyzaga.

For his part, Navotas City Mayor John Rey Tiangco expressed his gratitude to the MMDA for convening the meeting.

“I am thankful to Chairman Artes for convening this meeting. To provide a status update, the Department of Environment and Natural Resources (DENR) reported that the air quality index in Metro Manila remains within acceptable or normal levels despite the recent incident involving the sanitary landfill. Additionally, we are utilizing a drone with thermal imaging capability to assess the possibility of ignition within the 44-hectare site,” Tiangco said.

The mayor explained

that the closure and rehabilitation plan had not been implemented by the operator, constituting violations of the conditions stipulated in the Environmental Compliance Certificate (ECC).

Metro Manila Council President and San Juan City Mayor Francis Zamora commended the Navotas LGU for its swift action to contain the fire.

“We understand how severe the situation in Navotas has been. It should serve as a lesson for us to be more prepared instead of merely reacting,” Zamora said.

The NSLF Task Group, led by the local government unit of Navotas, continues to conduct fire suppression operations through soil covering, smothering, and misting.

The fire at the Navotas Sanitary Landfill began on April 10, and continuous to be actively managed.

Among the agencies assisting in the operations are the Office of Civil Defense (OCD), Department of Public Works and Highways (DPWH), Department of Transportation (DOTr), DENR-Environmental Management Bureau, and MMDA. (MMDA)
